Against a backdrop of highways, diners, and cheap coffee, one couple finds peace through the redemptive power of love. Told from a wife's perspective, *Dirt Roads and Diner Pie* is the story of one couple's struggle to confront the long-reaching effects of childhood sexual abuse. Musician and former lead singer of the United States Air Force Band, Travis James Humphrey lived for thirty months in a culture of childhood sexual abuse while studying at New Jersey's prestigious American Boychoir School. After his tenure, Travis buried his memories deep. Years into the marriage, these memories began to surface and threaten their relationship. In an effort to resolve the problems, Shonna and her husband hit the road and navigated their way through the treacherous terrain of mental illness, sexual dysfunction, and shame. She details their journey within a month-long road trip throughout the southeastern United States taken shortly after Travis made his experience public. While the effect of child sex abuse informs nearly every aspect of their shared life, it does not define their relationship. That is the message Shonna offers: Sexual trauma may dominate, but it need not define the relationship. Shonna Milliken Humphrey's nonfiction has appeared in the *New York Times*, the *Atlantic*, *Salon.com*, *Down East*, and *Maine* magazine. For two years, she wrote regular food, restaurant, and lifestyle columns for the *Maine Sunday Telegram*. She holds an MFA in Nonfiction Writing and Literature from Bennington College.

She's his little sister's best friend—totally off limits. But then again, this tattooed bad boy has never followed the rules. Maddie: I can't remember a time when I wasn't in love with Nathan Burns. We met when I was six and twenty years later, I love him still. But he'll never see me as anything other than his little sister's best friend—a pest—if he even thinks of me that much. I've got to face facts. He's not into me. He'll never be into me. It's beyond time to move on. Nathan: I swear I blinked and my little sister's best friend—a woman who's about as off-limits as it can get—grew up. And she's hot

as hell. When did that happen? It doesn't help that she's everywhere now—at our weekly family dinner nights, sleeping on my brother's couch next door, lying out in our complex's swimming pool in a barely-there bikini. And who are these losers hanging around her lately? None of them are worthy of the woman she's become. Then again, neither am I. And when I stumble across her profile on a hook up app, all bets are off. *Can be read as a standalone*

The acclaimed author of Strategic Capitalism presents a provocative new vision of global industry in the age of 3-D printing: "essential business reading" (Kirkus, starred review). With books like Hypercompetition and Strategic

Capitalism, Richard D'Aveni has established himself as a business strategist of uncanny prescience. In *The Pan-Industrial Revolution*, he demonstrates how the advent of industrial-scale 3-D printing is already happening under the radar, and that it will have a far-reaching impact that most corporate and governmental leaders have yet to anticipate or understand. 3-D printing, now called additive manufacturing, has moved far beyond a desktop technology used by hobbyists to churn out trinkets and toys. In this eye-opening account, D'Aveni reveals how recent breakthroughs have been secretly adapted by Fortune 500 companies to revolutionize the manufacture jet engines, airplanes, automobiles, and so much more. D'Aveni explains how this technology will transform the landscape of manufacturing, and the dramatic effect this change will have on the world economy. A handful of massively powerful corporations—what D'Aveni calls pan-industrials—will become as important as any tech giant in re-structuring the global order.

A young problem gamblers true story of denial, acceptance and a lifelong trial to quit gambling for good. An eye opening novel focused around the hidden dangers of gambling.

Wall Street Journal bestseller! Poker champion turned business consultant Annie Duke teaches you how to get comfortable with uncertainty and make better decisions as a result. In Super Bowl XLIX, Seahawks coach Pete Carroll made one of the most controversial calls in football history: With 26 seconds remaining, and trailing by four at the Patriots' one-yard line, he called for a pass instead of a hand off to his star running back. The pass was intercepted and the Seahawks lost. Critics called it the dumbest play in history. But was the call really that bad? Or did Carroll actually make a great move that was ruined by bad luck? Even the best decision doesn't yield the best outcome every time. There's always an element of luck that you can't control, and there is always information that is hidden from view. So the key to long-term success (and avoiding worrying yourself to death) is to think in bets: How sure am I? What are the possible ways things could turn out? What decision has the highest odds of success? Did I land in the unlucky 10% on the strategy that works 90% of the time? Or is my success attributable to dumb luck rather than great decision making? Annie Duke, a former World Series of Poker champion turned business consultant, draws on examples from business, sports, politics, and (of course) poker to share tools anyone can use to embrace uncertainty and make better decisions. For most people, it's difficult to say "I'm not sure" in a world that values and, even, rewards the appearance of certainty. But professional poker players are comfortable with the fact that great decisions don't always lead to great outcomes and bad decisions don't always lead to bad outcomes. By shifting your thinking from a need for certainty to a goal of accurately assessing what you know and what you don't, you'll be less vulnerable to reactive emotions, knee-jerk biases, and destructive habits in your decision making. You'll become more confident, calm, compassionate and successful in the long run.

Increasingly, the power of a large, complex, wired nation like the United States rests on its ability to disrupt would-be cyber attacks and to be resilient against a successful attack or recurring campaign. Addressing the concerns of both theorists and those on the national security front lines, Chris C. Demchak presents a unified strategy for survival in an interconnected, ever-messier, more surprising cybered world and examines the institutional adaptations required of our defense, intelligence, energy, and other critical sectors for national security. Demchak introduces a strategy of “security resilience” against surprise attacks for a cybered world that is divided between modern, digitally vulnerable city-states and more dysfunctional global regions. Its key concepts build on theories of international relations, complexity in social-technical systems, and organizational-institutional adaptation. Demchak tests the strategy for reasonableness in history's few examples of states disrupting rather than conquering and being resilient to attacks, including ancient Athens and Sparta, several British colonial wars, and two American limited wars. She applies the strategy to modern political, social, and technical challenges and presents three kinds of institutional adaptation that predicate the success of the security resilience strategy in response. Finally, Demchak discusses implications for the future including new forms of cyber aggression like the Stuxnet worm, the rise of the cyber-command concept, and the competition between the U.S. and China as global cyber leaders. *Wars of Disruption and Resilience* offers a blueprint for a national cyber-power strategy that is long in time horizon, flexible in target and scale, and practical enough to maintain the security of a digitized nation facing violent cybered conflict.

Set in a small southern Michigan city in the early 1990s, *Winners and Losers* is a rollicking dark comedy starring Tom Slotrak, a young man who wins the jackpot in the Michigan Lottery and the crazy and (sometimes) adventures he has afterwards. He learns the hard way that money can't buy happiness but that it sure can lead to some very funny and bizarre experiences! At the beginning of the story, Tom is 26 but feels older because he's bored with his life and feels rootless. He's engaged to Erica Wonders: She's smart and good looking and doesn't treat him too badly, but Tom is bored with the relationship and doesn't really love her anymore. He's thinking about how he might be able to break off the engagement without all hell breaking loose. Though Tom is engaged to Erica, when he's at work he has a hard time keeping his mind and his eyes off clerk and administrative assistant Lena Coffee. Sexy, flirty, and funny, Lena is Tom's fantasy woman. Rumor has it that she has a boyfriend in a motorcycle gang, but she is just flirty enough and just nice enough to Tom for him to believe it's not quite impossible that he and Lena could hook up. They end up having a secret affair. However, Tom gets laid off from his job as an accountant at Allied Nuclear Corporation after a plant closing. He soon runs out of money and tries to find a new job but without much luck—eventually having to settle for shoveling manure for minimum wage at Meadowlark Farms. Erica is fed up with him, and it seems as if he'll soon hit rock bottom. He's down to his last \$17, and even though he knows he shouldn't, he buys a ticket for the Michigan Lottery at Joe's Gas Mart. He barely makes the effort to check his ticket against the winning number when it's announced on TV, but when

he does, the seemingly impossible happens: His ticket matches the winning number! Erica is absolutely thrilled, but Tom isn't as happy as might be expected after such a turn of good fortune. With Tom tagging along, Erica goes on a giant spending spree. When he's not shopping with Erica, everybody on planet Earth, it seems, tries to hit him up for money. The fortune has made Tom's alienation from Erica worse, and he ends up breaking off the engagement. The end of his engagement makes him much sadder than he ever would have imagined, but he at least hopes it will be the beginning of a new life for him. Before he even has a chance to think about what he'll do in the future, though, Lena calls him to tell him her boyfriend found out about their affair and is threatening to kill Tom, so he decides to leave town with hardly a moment's notice. Now that he has so much money, he doesn't necessarily think that's such a bad thing, and he makes his way to Florida after an adventure at a hillbilly bar in Tennessee. Tom ends up in Key West and thinks he'll like it there, but he gets a shock when he goes to an ATM and is refused a withdrawal. Before long, he learns that Erica has sued him claiming the winning ticket really belonged to her and that a judge in Michigan has frozen his bank accounts! Broke again, Tom must again go out and look for a job. He hires in as a salesman at Florida Guano, where he meets secretary/receptionist Honey Sweetwater. All she seems to do at the office is work on her nails and looked bored. Tom soon finds, however, that she has pretty, mischievous eyes and a great sense of humor. Before long, the two of them are going out together and having a great time. Tom's career at Florida Guano skids to a halt pretty quickly, but Tom and Honey have quite an adventure when they are invited to the Gothic mansion of Mr. Fabulous, the mysterious billionaire owner of Florida Guano. Finally, the case of Wonders vs. Slotrak goes on trial, and Tom returns to Michigan. A legal battle to end all battles ensues, and Tom knows that the whole rest of his life. Will he end up rich and living a dream with Honey or will he end up right back where he was after he lost his job at Allied Nuclear?

I Don't Know What to Believe addresses that decline and presents an insightful examination of authentic spirituality for those who desire answers, guidance, and perspective regarding an important aspect of their lives: their beliefs, and relationship to, a higher power. Rabbi Ben Kamin addresses questions he has received from real people over the thirty years of his ministry, such as: Why does my parents' religion have to define me? Am I God's child even if I don't go to religious services? Does scripture include me in its ideology regardless of how much scripture I know? How do I follow my own spirituality while still respecting my parents' traditions? Ben Kamin is the award-winning author of ten books and is a scholar on the life and work of Dr. Martin Luther King, Jr. He has led congregations in Toronto, New York, Cleveland, and San Diego since his ordination in 1978.

A Wall Street Journal Business Bestseller: This "vivid" inside story of WeWork and its CEO tells the remarkable saga of one of the most audacious, and improbable, rises and falls in American business history (Ken Auletta). Christened a potential savior of Silicon Valley's startup culture, Adam Neumann was set to take WeWork, his office share company disrupting the commercial real estate market, public, cash out on the company's forty-seven billion dollar valuation, and break the string of major startups unable to deliver to shareholders. But as employees knew, and investors soon found out, WeWork's capital was built on promises that the company was more than a real estate purveyor, that in fact it was a transformational technology company. Veteran journalist Reeves Weideman dives deep into WeWork and its CEO's astronomical rise, from the marijuana and tequila-filled board rooms to cult-like company summer camps and consciousness-raising with Anthony Kiedis. Billion Dollar Loser is a character-driven business narrative that captures, through the fascinating psyche of a billionaire founder and his wife and co-founder, the slippery state of global capitalism. A Wall Street Journal Business Bestseller "Vivid, carefully reported drama that readers will gulp down as if it were a fast-paced novel" (Ken Auletta)

From one of our most innovative and celebrated authors, the definitive take on the wildest story of the year—the David-vs.-Goliath GameStop short squeeze, a tale of fortunes won and lost overnight that may end up changing Wall Street forever. Bestselling author Ben Mezrich offers a gripping, beat-by-beat account of how a loosely affiliate group of private investors and internet trolls on a subreddit called WallStreetBets took down one of the biggest hedge funds on Wall Street, firing the first shot in a revolution that threatens to upend the establishment. It's the story of financial titans like Gabe Plotkin of hedge fund Melvin Capital, one of the most respected and staid funds on the Street, billionaires like Elon Musk, Steve Cohen, Mark Cuban, Robinhood co-CEOs Vlad Tenev and Baiju Bhatt, and Ken Griffin of Citadel Securities. Over the course of four incredible days, each in their own way must reckon with a formidable force they barely understand, let alone saw coming: everyday men and women on WallStreetBets like nurse Kim Campbell, college student Jeremy Poe, and the enigmatic Keith "RoaringKitty" Gill, whose unfiltered livestream videos captivated a new generation of stock market enthusiasts. The unlikely focus of the battle: GameStop, a flailing brick-and-mortar dinosaur catering to teenagers and outsiders that had somehow held on as the world rapidly moved online. At first, WallStreetBets was a joke—a meme-filled, freewheeling place to share shoot-the-moon investment tips, laugh about big losses, and post

diamond hand emojis. Until some members noticed an opportunity in GameStop—and rode a rocket ship to tens of millions of dollars in earnings overnight. In thrilling, pulse-pounding prose, *THE ANTISOCIAL NETWORK* offers a fascinating, never-before-seen glimpse at the outsize personalities, dizzying swings, corporate drama, and underestimated American heroes and heroines who captivated the nation during one of the most volatile weeks in financial history. It's the amazing story of what just happened—and where we go from here.

This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.
