Now available in a new edition, this book explores Hieronymus Bosch's masterpiece Garden of Earthly Delights. Few paintings inspire the kind of intense study and speculation as Garden of Earthly Delights, the world-famous triptych by Netherlandish master Hieronymus Bosch. The painting has been interpreted as a heretical masterpiece, an opulent illustration of the Creation, and a premonition of the end of the world. In this book, renowned art historian Hans Belting offers a radical reinterpretation of the work, which he sees not as apocalyptic but utopian, portraying how the world would exist had the Fall not happened. Taking readers through each panel, Belting discusses various schools of thought and explores Bosch's life and times. This fascinating study is an important contribution to the literature and theory surrounding one of the world's most enigmatic artists.

KamaSutra In the literature of all countries there will be found a certain number of works treating especially of love. Everywhere the subject is dealt with differently, and from various points of view. In the present publication it is proposed to give a complete translation of what is considered the standard work on love in Sanscrit literature, and which is called the 'Vatsyayana Kama Sutra,' or Aphorisms on Love, by Vatsyayana. The rough English translation of Kamasutra is pleasure (kama) treatise (sutra). In the West, since it was first (rather surreptitiously) translated and published back in 1883, the book has generally been associated with a series of beautiful, ancient illustrations of a couple determinedly coupling in a variety of fascinating and often utterly improbable positions; as essentially the erotic counterpart to the ascetic asanas of yoga

HELIUM, June 8th, 1925 MY DEAR MR. BURROUGHS: It was in the Fall of nineteen seventeen at an officers' training camp that I first became acquainted with John Carter, War Lord of Barsoom, through the pages of your novel "A Princess of Mars." The story made a profound impression upon me and while my better judgment assured me that it was but a highly imaginative piece of fiction, a suggestion of the verity of it pervaded my inner consciousness to such an extent that I found myself dreaming of Mars and John Carter, of Dejah Thoris, of Tars Tarkas and of Woola as if they had been entities of my own experience rather than the figments of your imagination. It is true that in those days of strenuous preparation there was little time for dreaming, yet there were brief moments before sleep claimed me at night and these were my dreams. Such dreams! Always of Mars, and during my waking hours at night my eyes always sought out the Red Planet when he was above the horizon and clung there seeking a solution of the seemingly unfathomable riddle he has presented to the Earthman for ages.

Tritiya-Prakriti: People of the Third Sex is a collection of years of research into a topic seldom discussed or easily found within the Hindu/Vedic scriptural canon. Based entirely upon authentic Sanskrit references and modern concurring facts, the book guides us through the original Hindu concept of a "third sex" (defined as homosexuals, transgenders and the intersexed), how such people were constructively incorporated into ancient Indian society, and how foreign influences eventually eroded away that noble system. It discusses how this concept can be practically applied in today's modern world, the importance of all-inclusiveness in human society, and the spiritual principle of learning to transcend material designations altogether. *Tritiya-Prakriti: People of the Third Sex* will be a valuable source of reference for anyone interested in Hindu/LGBTI studies whether they are newcomers to the field or seasoned veterans of Vedic knowledge. It offers a veritable treasure trove of fresh information and ideas that will likely challenge the reader to rediscover and rethink Hinduism's traditional understanding and treatment of gay, lesbian, and other gender-variant people within its culture. "The recognition of a third sex in ancient India and Hinduism is highly relevant in many ways. Our own modern-day society has only recently begun to understand sexual orientation, transgender identity, and intersex conditions, and our legal and social systems are just beginning to catch up with and accommodate such people in a fair and realistic way . . . yet ancient India had already addressed and previously resolved this issue many thousands of years ago in the course of its own civilization's development. Indeed, there is much we can learn from ancient India's knowledge regarding the recognition and accommodation of a 'third sex' within society." -Amara Das Wilhelm "In India there is a system where such people (the third sex) have their own society, and whenever there is some good occasion like marriage or childbirth, they go there and pray to God that this child may be very long living." -A.C. Bhaktivedanta Swami Prabhupada "Gay and lesbian people have always been a part of society from Vedic times to our postmodern times. They should be accepted for what they are in terms of their sexual orientation and encouraged like everyone else to pursue spiritual life." -B.V. Tripurari Swami "Initially, I did not really allow myself to go deep in trying to understand the third sex. I figured that this was necessary only for those who are insensitive, arrogant and fundamentalist . . . who think that they are compassionate and tolerant while basically being superficial and even condescending. It is quite amazing how most of us can be so prejudiced about so many things and not even know it . . . I thank you and several others for your compassion and for your tolerance in making efforts to educate your Godfamily, so that we can be more authentic servants of the servant." -H.H. Bhakti Tirtha Swami

"'Utthisht Bharat,' he said, and in that magical moment I felt that the river, the trees, and the sky...were saying, 'Utthisht Bharat.' I got up, never to look back or have doubts again." Just as the Bharata of yore responded to the Lord's call to rise up from dejection, to fulfill his glorious destiny, this modern day Bharat too rises up from the pits of despair and defeat, to set out steadily on his appointed path of duty. Bharat, an IITian, with a management degree from IIM, had a 'successful' innings in the corporate world, with overseas postings too. Having acquired a substantial bank balance, he has the urge to set up a business in rural India, which will bring greater profits to the farmers. Predictably, he is ruthlessly pushed out, and systematically ruined by the vested interests that feel threatened. Deep in despair, he gets help from a most unexpected quarter, a poor tribal snake charmer, known as Nagbaba... A gripping tale of how he comes out from the mires of debt and ruin, to rise up again, wiser but undeterred from his chosen path... A story of modern India, the two Indias of the cities and the villages... the urban, educated, elite youth with modern knowledge from science and technology, and the illiterate people of the forests, who have the wealth of wisdom passed down from centuries... the development of cities, which takes place at the cost of the proliferation of slums... the two different cultures that coexist in mutual wariness and mistrust...

A guide to overcoming obsessive love presents case histories of men and woman caught in the grip of obsessive passion and describes a step-by-step program that shows readers how to have healthy, lasting, pain-free relationships. Reprint. *Bracket [Takes Action]* provokes spatial practice's potential to incite and respond to action today. Over 28 essays and 15 projects investigate the role of design to catalyze a public, as well as forums for that public to act upon. The rise of several divisive leaders within contemporary politics, has once again brought action to the foreground. As a new generation makes their voices heard, they are also grappling to find effective platforms for action through design. The notion of action simultaneously evokes a discussion on what we are acting for and value. This is particularly important to consider at a moment when the authoritative systems--governments and corporations--appear more divergent to the voices on the ground. At the same time, within an increasingly pluralistic society, what we collectively value is increasingly unclear, which presents a primary challenge on action. *Bracket [Takes Action]* is situated at a critical point in history where the who, what, where, and how of action need to be re-conceptualized to relate to who we are, how we live, and how we communicate today. The role of design and the agency of the designer are at stake in facilitating or stifling action. *Bracket [Takes Action]* contains over 28 essays and 15 design projects that are structured into six sub-themes:

ReAction, CounterAction, InterAction, FAction, InAction, and RetroAction. The intent of the fourth almanac of Bracket is to unpack the contemporary possibility of action through design. Our contention here is that a democracy in deficit cannot be repaired without a deeper investigation in how actions can be designed, accommodated for, and encouraged. Equally, this is our call to action--it is time for design to take action and greater accountability for its actions in our contemporary socio-political spheres. Bracket [Takes Action] provokes spatial practice's potential to incite and respond to action. In the beginning, there was nothing, only an endless ocean. From the water emerged a golden egg, breaking open to reveal Brahma, who had created himself within it. Emerging from the egg, Brahma started to make the universe, the earth, heaven and human beings to populate and live in his creation. These stories from the Brahma Purana talk of the earth as it was, just after it was created and of Brahma's role in the cycle of creation.
