

Collins Junior Atlas Collins Primary Atlases

In Philip's Children's Atlas, clear and accurate maps are combined with fascinating facts about the countries of the world to provide essential geographical information for young readers. In addition, guidance is given at the beginning of the atlas on how to use the maps, encouraging the early development of map skills. The atlas is organized spread by spread in the classic sequence: first Europe, then its land neighbour Asia, followed by Africa, Australia and Oceania, North America and South America. Illustrated with interesting full-colour photographs and packed with fact boxes, curiosities, flags, stamps and quiz questions, Philip's Children's Atlas is both fun to use and easy to understand. A past winner of the Geographical Association's award for making a significant contribution to geography, Philip's Children's Atlas was judged "an excellent 'all round' children's atlas with simple yet well-designed maps, well-illustrated with colour photographs. It links places to issues, events and real people, giving a clear sense of place."

The Oxford Junior Atlas is a clear and informative atlas for all 7-11 year olds. It combines the essential features of simple and colourful mapping with many colour photographs, including aerial photos and satellite imagery. There is good topographic coverage of the United Kingdom at a generous scale, as well as extensive thematic coverage of the British Isles, the Continents, and the World. Illustrated information panels identify issues raised by the map topics that include Rivers, Weather, Settlement, and Environmental change. Picture icons provide visual clues to common themes. A child-friendly index includes both page numbers and grid references.

Intended to be used independently for enrichment or with any Harcourt Brace social sciences textbook series.

The Jacaranda Primary Atlas 4e has taken up the exciting opportunity to revise its contents to meet the requirements of the Australian Curriculum: Geography. Retaining its mapping excellence and graded skill development, the atlas presents a wealth of gazetteer and thematic maps, new case studies and fully updated statistics that address the curriculum content descriptions for Years 3-6. Features ? Includes important innovations such as satellite images, enhanced subcontinental maps, case studies and coverage of critical global themes and issues ? Map keys are clear and accessible for primary students and help develop map skills ? Cross-curriculum priorities are a focus in the case studies for Australia and the World sections ? Students are encouraged to be active and informed citizens through a Let's help feature. Skills section ? Students are introduced to basic map interpretation and geospatial skills through stimulating resources and activities. ? Where relevant, statistics and other data have been updated ? Specific map reading skills are explained using real examples ? Skill development is reinforced with a range of activities. World section Satellite images of continents give students a bird's-eye view of the world, while new case studies explore natural and human features, geographical and cultural diversity and issues relating to the ways humans interact with their environments. Additional thematic pages provide an engaging reference on topics such as climate, endangered species, culture and World Heritage. Australia section This section comprehensively informs students about their own country. Detailed maps of each state

and territory are supported by Geofacts and case studies appropriate to primary school students and curriculum themes. Australia's natural and human features, resources and their sustainable use, care for special places, Aboriginal and Torres Strait Islander cultures and our connections with other countries are featured throughout this section. Online QR codes feature throughout the Atlas so students and teachers can quickly access relevant online content and weblinks. Simply scan the QR code with an iPad or tablet to access the web material. (QR reader required. QR readers are available free on the App Store and Google Play.)

Collins World in Maps is a multi-topic atlas of the world, which introduces the most relevant physical and human topics to reflect the Geography Key Stage 2-3 requirements of the National Curriculum. Formerly published as Collins Keystart World Atlas, this collection of maps can be used to investigate different themes and topics. It tells a story in maps, diagrams, charts, words and photographs, each of which presents information to compare and examine. We live on a remarkable planet and this atlas helps us to make sense of the world today and understand how things came to be, as well as how they might change in years to come.

Suggested activities on each spread encourage users to explore further.

Presents an atlas featuring physical, population, and climate maps of the world and of the continents.

Prepared specifically to support social studies and geography courses at upper primary and lower secondary levels throughout the Caribbean. The atlas is fully illustrated and includes the most up to date reference and thematic mapping of the countries within the Caribbean Community as well as the broader Caribbean region. Maps are fully supported with illustrations, photographs and data. World maps cover international issues which have a bearing on Caribbean development.

This Little Pebble begins with a child finding a small, forgotten pebble in his pocket. It uses this simple premise as a jumping-off point to explore what rocks are, where they come from and how fundamental they are to life here on Earth. For readers aged six and up, This Little Pebble uses beautiful artwork to show the rich diversity of rocks all around us, with friendly, narrative text by award-winning children's writer Anna Claybourne making the book feel like a journey. It explores topics as fascinating and as wide-ranging as Earth's formation, the rock cycle, volcanoes and earthquakes, where precious stones come from and what fossils are. It also provides great support for the topic of rocks in both the geography and science curriculum.

From which country can you see the Northern Lights? Where is the world's highest mountain situated? Which reef is home to 1,500 kinds of fish? Inside this book, find out about the countries, continent rivers, seas, and mountain ranges of the world. Discover hundreds of fascinating details about their landscapes, climates, and more with 100 super stickers and over 30 pages packed with amazing atlas facts.

An ideal world reference atlas for young primary school geographers aged 9-11 years at Keystage 2. Published in association with the Geographical Association, enabling students to learn about the world today by exploring clear and engaging maps, study satellite imagery, understand key facts and statistics, and learn how maps and atlases work. * This atlas has topographical based mapping which helps the young geographer understand the processes which take place during the formation of the earth's landscapes. The atlas has been designed specifically as an introductory reference atlas for 7-11 year olds studying geography at Keystage 2. * The reference mapping is designed for maximum clarity and accessibility, and is supported with photographs and data files, with detailed map keys and scale information on each map. Specially selected topic maps give additional information linking to knowledge and understanding of distant places. * The atlas is organised into sections covering the UK, Europe, the World and Continents with larger scale maps of countries and regions popular for focus studies. A variety of carefully selected scales are used to allow for comparison of size and distance in different countries.

A simple introductory atlas with a narrative thread, encouraging young children to learn about the Earth in space, the world, continents, and countries.

A completely new Curriculum supportive Primary World reference atlas designed for use in the classroom or at home. Includes regional politically coloured reference mapping of all major world regions.

Collins First Atlas is a fun, vibrant and clear starter atlas for 4-6 year olds which provides an introduction to basic geographical and atlas vocabulary. This first atlas introduces the younger pupil to photographs and mapping of a local area. From this beginning the atlas gradually maps through regional, national, continental and world regions with global views of the wider world. Carefully selected map labels highlight certain countries or features which can be easily identified to illustrate the concept of mapping as it becomes more complex. All maps are supported with short informative sentences which use a basic geographical vocabulary.

File Type PDF Collins Junior Atlas Collins Primary Atlases

A photopack.

Presents an overview of the countries of the world, explaining how to look at a map, where people live on the Earth, and major countries and regions.

Fully revised and updated for 2021, this curriculum-supportive world atlas is the perfect tool for students aged 14-16 years (Key Stage 4, GCSE).
