Ezryan, the commander of the First Legion, had fallen from the Heaven. He was sent to obtain a forbidden secret within its walls, one that it was said could strengthen the Hell's reign over humans. What he did caused the Heaven to unleash its wrath and burn him, thus, he carried the secret he'd obtained to his grave. Centuries after his death, lesser soldiers mysteriously disappeared. Cain, the son of Adam, announces the most unexpected prophecy, which is believed to be a groundless lie not to be spoken. However, upon hearing Cain's prophecy, one of Ezryan's companions revealed the commander's last words, which he secretly confided before he died. It urged them to follow the dark trails he left behind. Their quest leads them to encounter friends and foes beyond their imagination. Along with it, they uncovered not only deadly secrets that could save their lives, but also their true enemies who seek to destroy them.

How has a medical practice that carries substantial risk to the patient and offers very little actual benefit become so widely accepted by parents and fiercely advocated by the medical community? Historian of medicine David Gollaher tells the strange history of medicine's oldest enigma and most persistent ritual in Circumcision. From the extraordinarily painful initiation rite of the ancient Egyptians, through the Hebrew purification ritual, through circumcision's use by the rising medical community in the nineteenth century as prevention for ailments ranging from bedwetting to paralysis, the great mystery has been the persistence of the practice through vastly different social contexts.

Mike Dowson's photography is simply a case of capturing the moment - he distances himself from any kind of staging and stylisation. This lack of style has become a style in itself - the style of 'laissez faire.' His photographs of pretty girls appear fresh, unconsumed, spontaneous, tasteful and very erotic. Dowson's models must always convey the feeling of availability, the petty bourgeois may call them tarts. However, these girls are no such thing, they are just young, being themselves and showing their lust for life.

'To read these letters is to climb up a wall and peer into the secret garden of two giants.' From the Foreword by FIONA SHAW This volume comprises the complete surviving correspondence between Benjamin Britten and Peter Pears. The 365 letters written throughout their 39-year relationship are here brought together and published, as Pears intended, for the first time. While the correspondence provides valuable evidence of the development of Britten's works, more significant is the insight into his relationship with Pears and their day-to-day life together. Entertaining to read, domestic and intimate, the letters provide glimpses of cultural and artistic life in the twentieth century, including pacifism and conscientious objection, critical assessments of music and other artists, transport and communications development in the twentieth century, the 'Aldeburgh corpses', art collecting, gossip, everyday life in an English country house, the development of the Aldeburgh Festival, performance practice in early music, looking after dachshunds, travel, and a host of other topics. Above all, when read together, Britten and Pears's letters allow the clearest possible look 'behind the scenes' of one of the most productive creative partnerships of the twentieth century. VICKI P. STROEHER is Professor of Music History at Marshall University where she is also Coordinator of the Music History & Literature area. NICHOLAS CLARK is the Librarian at the Britten-Pears Foundation at The Red House, Britten and Pears's home in Aldeburgh, Suffolk. JUDE BRIMMER is an Archivist at the Britten-Pears Foundation.

"This book, the first of its kind, is a historical, social, cultural and linguistic study of Indonesian. It traces the origins and pre-colonial development of the language, the emergence of Classical Malay from the fourteenth century, the choice of Malay by the nationalist movement as the national language prior to independence, the planning associated with the adoption and implementation of the language, its borrowings from other language, its use in contemporary Indonesia and its future. The book challenges many assumptions about Indonesian, particularly countering the myth that Indonesian is a simple language."--BOOK JACKET.

At the XIst World Congress of Historical Sciences (CISH) in Stockholm 1960, an interdisciplinary International Commission for Historical Demography was created, where researchers in letters and science could meet, and develop a new field with global dimensions and ambitions.

Across Europe we are witnessing a series of events that are drawing upon representations of men and masculinity that are rupturing the social fabric of everyday life. For example, media reports of social unrest, misogynous hate crime, religious extremism, drug trafficking and political Far Right mobilization often have been at the centre of the discussion the figure of the apathetic, disenchanting, socially excluded young man. *Marginalized Masculinities* explores how men in precarious positions in different countries and social contexts understand and experience their masculinities, focusing on men who are viewed as being marginal in a range of fields in society including the family, work, the media and school. By focusing on atypical or marginal masculinities in each subfield, Haywood and Johansson provide an informed understanding of what it means to experience marginalization. Indeed, within this enlightening volume the chapters engage with the issue of whether it is necessary to name 'a' dominant masculinity in order to make sense of and understand the nature of marginalized masculinity. This insightful title will be of interest to researchers, undergraduates and postgraduates interested in fields such as Gender Studies, International Studies, Comparative Studies and Men Studies.

"In my mind rose a misty picture of a little girl in a floral dress. As for her face: nothing. I could only hope that she had been pretty. I sat overcome. What a procession of developments in one day! Only that morning I had left Madiun; at midday I was wobbling on a buggy past an ocean of rice fields; tonight, suddenly, I had been renamed by my parents and handed a wife." Thus begins Sastrodarsono's life, returning to his village as a newly-appointed schoolteacher, and by virtue of that position, a member of the "priyayi" - functionary gentry awesomely elevated above the peasantry of his origins. From those most traditional of Javanese institutions - change of name and a virtually imposed marriage-he moves on with his bride to found a line of modernizing generations active across the whole span of recent Indonesian history: the 20th century late-colonial period, Japanese occupation, war of independence and two decades of social disorder ending in the mid-1960s with the rise of Suharto's authoritarian New Order government. The ideal of gentrification threads through this saga, both in the implicit concerns of a variety of characters and in the hopes of wretched villagers for whom the literacy necessary to approach that higher status is largely a forlorn dream.

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.
