Five outstanding selections with complete literal English translations on facing pages: Schnitzler's "Lieutenant Gustl," Mann's "Tristan," Kafka's "The Judgment," two more.

A majority of the chapters in this book were originally presented as papers at a conference held at Queen's University Belfast in September 2006. The volume explores the oral-written dynamic in the conte français/francophone, focusing on key aspects of the relationship between oral and written forms of the conte. The chapters fall into four broad thematic areas (the oral-written dynamic in early modern France; literary appropriations and transformations; postcolonial contexts; storytelling in contemporary France: linguistic strategies). Within these broad areas, some chapters deal with sources and influences (such as that of written on oral and vice versa), others with the nature of the discourse resulting from an oral-written dynamic (discourse structure, linguistic features etc.), some with the oral-written interface as it affects the definition of genre, others with the role of the 'oral' within the literary or written text (use of storytelling scenarios, the problematics inherent in transcribing/adapting the spoken word etc.). This chronological and methodological range allows us to situate the emergence of the form in socio-cultural and historical terms, and to open up debate around the role of the conte in particular geographical and political contexts: regional, national, European and postcolonial. This book contains contributions in both English and French.

precedent "French Short Stories". The stories have been chosen from representative authors of the nineteenth century with a view to: (1) literary worth, (2) varied style and subject-matter, (3) large vocabulary, (4) interest for the student. The vocabulary is large (between 6000 and 7000 words); it is hoped that it will be found to be complete, with the exception of merely personal names, having no English equivalent and of no signification beyond the story in which they occur. In a few instances words will be found in the text with special meanings; in these cases the vocabulary contains the usual signification as well as the special. Irregularities in pronunciation are indicated in the vocabulary. A knowledge of the elementary principles of French grammar on the part of the student is presupposed. Consequently the notes contain few grammatical explanations. Repetition of rules that may be found in the ordinary grammars would be unnecessary, and the individual instructor will probably prefer to adapt this side of the work to the needs of each class, Or better still to the needs of each student. Mere translations have also been avoided in the notes; the complete vocabulary will enable the student to do this work himself. The body of the notes is devoted to the explanation of historical and literary references and to the explanation of difficult or exceptional grammatical constructions. A few general remarks have been made in connection with each author in order to point out his place in French literature; bibliographical material for more detailed information has been indicated and the principal works of each author have been mentioned, together with one or more editions of his works. No alteration of any kind has been made in the French Text.

Ever since 1759, when Voltaire wrote "Candide" in ridicule of the notion that this is the best of all possible worlds, this world has been a gayer place for readers. Voltaire wrote it in three days, and five or six generations have found that its laughter does not grow old. "Candide" has not aged. Yet how different the book would have looked if Voltaire had written it a hundred and fifty years later than 1759. It would have been, among other things, a book of sights and sounds. A modern writer would have tried to catch and fix in words some of those Atlantic changes which broke the Atlantic monotony of that voyage from Cadiz to Buenos Ayres. When Martin and Candide were sailing the length of the Mediterranean we should have had a contrast between naked scarped Balearic cliffs and headlands of Calabria in their mists. We should have had quarter distances, far horizons, the altering silhouettes of an Ionian island. Colored birds would have filled Paraguay with their silver or acid cries. Dr. Pangloss, to prove the existence of design in the universe, says that noses were made to carry spectacles, and so we have spectacles. A modern satirist would not try to paint with Voltaire's quick brush the doctrine that he wanted to expose. And he would choose a more complicated doctrine than Dr. Pangloss's optimism, would study it more closely, feel his destructive way about it with a more learned and caressing malice. His attack, stealthier, more flexible and more patient than Voltaire's, would call upon us, especially when his learning got a little out of control, to be more than patient. Now and then he would bore us. "Candide" never bored anybody except William Wordsworth. Voltaire's men and women point his case against optimism by starting high and falling low. A modern could not go about it after this fashion. He would not plunge his people into an unfamiliar misery. He would just keep them in the misery they were born to.
