A based-on source for the Warner Bros. film *Richard Jewell*, starring Sam Rockwell, Kathy Bates, Jon Hamm, Olivia Wilde, and Paul Walter Hauser† "Meticulously reported, bracingly written, full of memorable and bizarre characters, the book casts a wary eye on the worlds of law enforcement and journalism, and their multiple failures in this tale. It's a story with no winners – except for readers of this terrific book."† — Jeffrey Toobin The masterful true-crime account of the 1996 Centennial Olympic Park bombing that captured the world's attention, and the heroic security guard-turned-suspect at the heart of it all On July 27, 1996, a hapless former cop turned hypervigilant security guard named Richard Jewell spotted a suspicious bag in Atlanta's Centennial Olympic Park, the town square of the 1996 Summer Games. Inside was a bomb, the largest of its kind in FBI and ATF history. Minutes later, the bomb detonated amid a crowd of fifty thousand people. But thanks to Jewell, it only wounded 111 and killed two, not the untold scores who would have otherwise died. With the eyes of the world on Atlanta, the Games continued. But the pressure to find the bomber was intense. Within seventy-two hours, Jewell went from the hero to the FBI's main suspect. The news leaked and the intense focus on the guard forever changed his life. The worst part: It let the true bomber roam free to strike again. What really happened that evening during the Olympic Games? The attack left a mark on American history, but most of what we remember is wrong. In a triumph of reporting and access in the tradition of the best investigative journalism, former U.S. Attorney Kent Alexander and former Wall Street Journal reporter Kevin Salwen reconstruct all the events leading up to, during, and after the Olympic bombing from mountains of law enforcement evidence and the extensive personal records of key players, including Richard himself. The Suspect, the culmination of more than five years of reporting, is a gripping story of the rise of domestic terrorism in America, the advent of the 24/7 news cycle, and an innocent man's fight to clear his name.

For almost thirty years, David Thomson's Biographical Dictionary of Film has been not merely "the finest reference book ever written about movies" (Graham Fuller, Interview), not merely the "desert island book" of art critic David Sylvester, not merely "a great, crazy masterpiece" (Geoff Dyer, The Guardian), but also "fiendishly seductive" (Greil Marcus, Rolling Stone). This new edition updates the older entries and adds 30 new ones: Darren Aronofsky, Emmanuelle Beart, Jerry Bruckheimer, Larry Clark, Jennifer Connelly, Chris Cooper, Sofia Coppola, Alfonso Cuaron, Richard Curtis, Sir Richard Eyre, Sir Michael Gambon, Christopher Guest, Alejandro Gonzalez Inarritu, Spike Jonze, Wong Kar-Wai, Laura Linney, Tobey Maguire, Michael Moore, Samantha Morton, Mike Myers, Christopher Nolan, Dennis Price, Adam Sandler, Kevin Smith, Kiefer Sutherland, Charlize Theron, Larry Wachowski and Andy Wachowski, Lew Wasserman, Naomi Watts, and Ray Winstone. In all, the book includes more than 1300 entries, some of them just a pungent paragraph, some of them several thousand words long. In addition to the new "musts," Thomson has added key figures from film history—lively anatomies of Graham Greene, Eddie Cantor, Pauline Kael, Abbott and Costello, Noël Coward, Hoagy Carmichael, Dorothy Gish, Rin Tin Tin, and more. Here is a great, rare book, one that encompasses the chaos of art, entertainment, money, vulgarity, and nonsense that we call the movies. Personal, opinionated, funny, daring, provocative, and passionate, it is the one book that every filmmaker and film buff must own. Time Out named it one of the ten best books of the 1990s. Gavin Lambert recognized it as "a work of imagination in its own right." Now better than ever—a masterwork by the man playwright David Hare called "the most stimulating and thoughtful film critic now writing."

Growing up in the eighties in East London was no picnic. Proper hard bastards, wannabe villains and cockney wide boys everywhere you went, all looking to make their mark. With trouble at home and more at school, Danny Dyer didn't have many options. He was a rascal, running with a tough crowd, getting himself into scrapes with the Old Bill, on the verge of becoming just another nobody. Until he started to act. It came naturally to him. He landed role after role, working with big stars, making a name for himself. And then came Human Traffic, and his career went into overdrive. Fame opened doors into the best clubs, the best booze and even better drugs. But with the highs came the lows, and as the drinks flowed, the work dried up. Shut out of an industry that didn't understand him, that heard his reputation before bothering with his talent, he had no choice but to turn it around and sort himself out. This is the real story - straight up. Funny, honest, full of swagger, and jammed full of antics and anecdotes, this memoir tears it up proper and delivers on every page.

A landmark in the conversation about race and religion in America. "They put him to death by hanging him on a tree." Acts 10:39 The cross and the lynching tree are the two most emotionally charged symbols in the history of the African American community. In this powerful new work, theologian James H. Cone explores these symbols and their interconnection in the history and souls of black folk. Both the cross and the lynching tree represent the worst in human beings and at the same time a thirst for life that refuses to let the worst determine our final meaning. While the lynching tree symbolized white power and "black death," the cross symbolizes divine power and "black life" God overcoming the power of sin and death. For African Americans, the image of Jesus, hung on a tree to die, powerfully grounded their faith that God was with them, even in the suffering of the lynching era. In a work that spans social history, theology, and cultural studies, Cone explores the message of the spirituals and the power of the blues; the passion and of Emmet Till and the engaged vision of Martin Luther King, Jr.; he invokes the spirits of Billie Holliday and Langston Hughes, Fannie Lou Hamer and Ida B. Well, and the witness of black artists, writers, preachers, and fighters for justice. And he remembers the victims, especially the 5,000 who perished during the lynching period. Through their witness he contemplates the greatest challenge of any Christian theology to explain how life can be made meaningful in the face of death and injustice.

Acclaimed Canadian poet Steven Price has conjured a stunning debut novel that explores what we ask from each other, and how much we are prepared to give. Set in the city of Victoria, British Columbia, *Into That Darkness* opens at the moment when a massive earthquake hits the entire west coast with devastating results. Amid the destruction of the city, survivors are left to negotiate a calamity in which bonds of civility are pushed to their limits and often broken. When Arthur Lear hears a voice crying in the rubble, he finds himself descending deep under a collapsed building in a desperate attempt to save a young boy and his mother. But what he discovers there will change him forever — as circumstances lead him across the city's broken landscape, through the chaos of its hospitals and streets, in a harrowing search for the mother's lost daughter. Over the days that follow, Lear's very sense of humanness will be tested and compromised, as he faces the limits of himself and his fellow survivors, in his long journey home. A novel for our age of anxiety and fear, Steven Price delivers a powerful story about the physical manifestation of the darker things lurking in our culture, in ourselves.

Justice Provocateur focuses on Prime Suspect, a popular British television film series starring Oscar and Emmy award-winning actress Helen Mirren as fictional London policewoman Jane Tennison. Gray Cavender and Nancy C. Jurik examine the media constructions of justice, gender, and police work in the show, exploring its progressive treatment of contemporary social problems in which women are central protagonists. They argue that the show acts as a vehicle for progressive moral fiction--fiction that gives voice to victim experiences, locates those experiences within a larger social context, transcends traditional legal definitions of justice for victims, and offers insights into ways that individuals might challenge oppressive social and organizational arrangements. Although Prime Suspect is often seen as a uniquely progressive, feminist-inspired example within the typically more conservative, male-dominated crime genre, Cavender and Jurik also address the complexity of the films' gender politics. Consistent with some significant criticisms of the films, they identify key moments in the series when Tennison's character appears

to move from a successful woman who has it all to a post-feminist stereotype of a lonely, aging career woman with no strong family or friendship ties. Shrewdly interpreting the show as an illustration of the tensions and contradictions of women's experiences and their various relations to power, Justice Provocateur provides a framework for interrogating the meanings and implications of justice, gender, and social transformation both on and off the screen.

Crime novelist and former police officer Nigel McCrery provides an account of all the major areas of forensic science from around the world over the past two centuries. The book weaves dramatic narrative and scientific principles together in a way that allows readers to figure out crimes along with the experts. Readers are introduced to such fascinating figures as Dr. Edmond Locard, the "French Sherlock Holmes"; Edward Heinrich, "Wizard of Berkeley," who is credited with having solved more than 2,000 crimes; and Alphonse Bertillon, the French scientist whose guiding principle, "no two individuals share the same characteristics," became the core of criminal identification. Lee Bailey, the seminal 1936 murder that demonstrated the usefulness of the microscope in examining trace evidence, the 1849 murder of a wealthy Boston businessman that demonstrated how difficult it is to successfully dispose of a corpse, and many others.
