A timely collection of essays by prominent scholars in the field—on the past, present, and future of rhetoric instruction. From Isocrates and Aristotle to the present, rhetorical education has consistently been regarded as the linchpin of a participatory democracy, a tool to foster civic action and social responsibility. Yet, questions of who should receive rhetorical education, in what form, and for what purpose, continue to vex teachers and scholars. The essays in this volume converge to explore the purposes, problems, and possibilities of rhetorical education in America on both the undergraduate and graduate levels and inside and outside the academy. William Denman examines the ancient model of the "citizen-orator" and its value to democratic life. Thomas Miller argues that English departments have embraced a literary-research paradigm and sacrificed the teaching of rhetorical skills for public participation. Susan Kates explores how rhetoric is taught at nontraditional institutions, such as Berea College in Kentucky, where Appalachian dialect is espoused. Nan Johnson looks outside the academy at the parlor movement among women in antebellum America. Michael Halloran examines the rhetorical education provided by historical landmarks, where visitors are encouraged to share a common public discourse. Laura Gurak presents the challenges posed to traditional notions of literacy by the computer, the promises and dangers of internet technology, and the necessity of a critical cyber-literacy for future rhetorical curricula. Collectively, the essays coalesce around timely political and cross-disciplinary issues. Rhetorical Education in America serves to orient scholars and teachers in rhetoric, regardless of their disciplinary home, and help to set an agenda for future classroom practice and curriculum design.

Sociology is the study of society. In order to understand society we must be able to see the world through the eyes of others. By using this social logical imagination you can understand the world around you. Sociology involves asking questions and solving problems. It focuses on looking at people and their ways of life as well as studying social trends, cultural changes, human development, social institutions, and collective behavior. Studying sociology also means looking at why things are where they are and at the relationships between humans and the world around them. The study of sociology helps us make connections between human behavior and society. - p. xxvi-xxvii.

Linda Nilson puts forward an innovative but practical and tested approach to grading--the specifications grading paradigm--which restructures assessments to streamline the grading process and greatly reduce grading time, empower students to choose the level of attainment they want to achieve, reduce antagonism between the evaluator and the evaluated, and increase student receptivity to meaningful feedback, thus facilitating the learning process - all while upholding rigor. In addition, specs grading increases students' motivation to do well by making expectations clear, lowering their stress and giving them agency in determining their course goals. Among the unique characteristics of the schema, all of which simplify faculty decision making, are the elimination of partial credit, the reliance on a one-level grading rubric and the "bundling" of assignments and tests around learning outcomes. Successfully completing more challenging bundles (or modules) earns a student a higher course grade. Specs grading works equally well in small and large class settings and encourages "authentic assessment." Used consistently over time, it can restore credibility to grades by demonstrating and making transparent to all stakeholders the learning outcomes that students achieve. THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATE. A new take on the traditional rhetorical modes, showing how they are used in the kinds of writing college students are most often assigned--arguments, analyses, reports, narratives, and more.

What If? is the first handbook for writers based on the idea that specific exercises are one of the most useful and provocative methods for mastering the art of writing fiction. With more than twenty-five years of experience teaching creative writing between them, Anne Bernays and Pamela Painter offer more than seventy-five exercises for both beginners and more experienced writers. These exercises are designed to develop and refine two basic skills: writing like a writer and, just as important, thinking like a writer. They deal with such topics as discovering where to start and end a story; learning when to use dialogue and when to use indirect discourse; transforming real events into fiction; and finding language that both sings and communicates precisely. What If? will be an essential addition to every writer's library, a welcome and much-used companion, a book that gracefully borrows a whisper from the muse.

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" ---Gerald Graff, author of Clueless in Academe and 2008 President, Modern Language Association This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced teachers of writing will learn from the contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have

put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of *Scientific Authorship: Credit and Intellectual Property in Science* "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of *Singular Texts/Plural Authors: Perspectives on Collaborative Writing* digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. Calling for a radical reexamination of the traditional foundation of composition instruction--the thesis/support form, this book argues that the essay, with its informality, conversational tone, meditative mood, and integration of form and content, is better suited to developmental, epistemological, ideological, and feminist rhetorical perspectives. The book first traces the origins of the essay in the 16th century. It then examines 20th-century theories of the form to illustrate what constitutes the fundamental qualities of the essay--epistemological skepticism, anti-scholasticism, and the use of an "anti-Ciceronian chrono-logic" organization ("we can only have one thought in our heads at a time, one thought leads to another, and time flows in only one direction"). This leads to writing that is well developed and well ordered, consistent, and methodical. The book shapes a "rehabilitative theory" of the essay by applying the theories of Mikhail Bakhtin to advance a conception of the essay as a centrifugal, novelistic, dialogic, and carnivalesque form. The book then examines the practice of some contemporary essayists--Aldous Huxley, Joan Didion, Charles Simic, Alice Walker, Scott Russell Sanders, Gretel Ehrlich, and Joseph Epstein. Extensive, detailed accounts of assignments and classroom activities on the essay form that have been used effectively with students are offered. Several student essays are presented in their entirety and analyzed in the book. An afterword and appendixes on sources and works cited conclude the book. (NKA)

It isn't that Abby Carson can't do her schoolwork. She just doesn't like doing it. And in February a warning letter arrives at her home. Abby will have to repeat sixth grade—unless she meets some specific conditions, including taking on an extra-credit project to find a pen pal in a distant country. Seems simple enough. But when Abby's first letter arrives at a small school in Afghanistan, the village elders agree that any letters going back to America must be written well. In English. And the only qualified student is a boy, Sadeed Bayat. Except in this village, it is not proper for a boy to correspond with a girl. So Sadeed's younger sister will write the letters. Except she knows hardly any English. So Sadeed must write the letters. For his sister to sign. But what about the villagers who believe that girls should not be anywhere near a school? And what about those who believe that any contact with Americans is . . . unhealthy? Not so simple. But as letters flow back and forth—between the prairies of Illinois and the mountains of central Asia, across cultural and religious divides, through the minefields of different lifestyles and traditions—a small group of children begin to speak and listen to one another. And in just a few short weeks, they make important discoveries about their communities, about their world, and most of all, about themselves.

In our talkative Western culture, speech is synonymous with authority and influence while silence is frequently misheard as passive agreement when it often signifies much more. In her groundbreaking exploration of silence as a significant rhetorical art, Cheryl Glenn articulates the ways in which tactical silence can be as expressive and strategic an instrument of human communication as speech itself. Drawing from linguistics, phenomenology, feminist studies, anthropology, ethnic studies, and literary analysis, *Unspoken: A Rhetoric of Silence* theorizes both a cartography and grammar of silence. By mapping the range of spaces silence inhabits, Glenn offers a new interpretation of its complex variations and uses. Glenn contextualizes the rhetoric of silence by focusing on selected contemporary examples.

Listening to silence and voice as gendered positions, she analyzes the highly politicized silences and words of a procession of figures she refers to as "all the President's women," including Anita Hill, Lani Guiner, Gennifer Flowers, and Chelsea Clinton. She also turns an investigative ear to the cultural taciturnity attributed to various Native American groups—Navajo, Apache, Hopi, and Pueblo—and its true meaning. Through these examples, Glenn reinforces the rhetorical contributions of the unspoken, codifying silence as a rhetorical device with the potential to deploy, defer, and defeat power. *Unspoken* concludes by suggesting opportunities for further research into silence and silencing, including music, religion, deaf communities, cross-cultural communication, and the circulation of silence as a creative resource within the college classroom and for college writers.
