A brilliant, enthralling debut novel about a fatherless boy growing up in a family of outspoken women in contemporary Pakistan, *The Wish Maker* is also a tale of sacrifice, betrayal, and indestructible friendship. Zaki Shirazi and his female cousin Samar Api were raised to consider themselves "part of the same litter." In a household run by Zaki's crusading political journalist mother and iron-willed grandmother, it was impossible to imagine a future that could hold anything different for each of them. But when adolescence approaches, the cousins' fates diverge, and Zaki is forced to

question the meaning of family, selfhood, and commitment to those he loves most. Chronicling world-changing events that have never been so intimately observed in fiction, and brimming with unmistakable warmth and humor, *The Wish Maker* is the powerful account of a family and an era, a story that shows how, even in the most rapidly shifting circumstances, there are bonds that survive the tugs of convention, time, and history.

This book, first published in 1958, aims to describe Greek art and poetry within this ambiguous period of ancient history (often referred to as the Greek 'Dark Ages'), and to explore the possibilities of learning about Mycenaean civilisation from its own documents and not only from archaeology. Specifically, Webster utilises Michael Ventris' decipherment of Linear B in 1952 – which proved that Greek was spoken in the Mycenaean world – to determine the general contours of aesthetic development from Mycenae to the time of the written composition of the Homeric epics. Because they record Mycenaean civilisation in Mycenaean terminology, while Homer was writing in Ionian Greek at the beginning of the polis civilisation, they show how much in Homer is in fact Mycenaean. Further, where it is clear that these Mycenaean elements cannot have survived until Homer's time, they tell us something about the poetry which connected the two.
