Especially with the new competition. Ben is an attractive, sophisticated, and savvy businessman, clearly there to destroy her chances of getting the job. Her luck couldn't be worse. With an obvious attraction and closeness forming between the two, Sarah discovers that Ben's motives may not be as clear as she first thought. What's he really doing there? In this follow-up to the classic, best-selling story of *The Seasons of the EmmaLee*, Michael Lindley revisits the idyllic resort community of Charlevoix, Michigan. *The Summer Town* continues the saga of the McKendrys, the Comptons, and George Hansen, now in the 1950s; as well as the love affair of Sally Thomason and Alex Clark and the magnificent cruising yacht, the *EmmaLee*, in present day. *The Summer Town* is the tale of two parallel stories, bridging time and a vast cultural divide. In the early 1950s, a scandalous assault late one night in the dunes along the beach sets off a series of events that pit lawyer George Hansen, defending a local Native American boy, against a group of elite summer residents of Charlevoix. At the same time, Jonathan McKendry,

now married to physician, Emily Compton McKendry, finds himself desperately struggling to save his wife and a young family from a wretched and murderous father. The modern-day story continues with George Hansen looking down from his passing into the next world to see the events that develop in the search for his killer, as well as the challenges faced by the Clark family as Alex Clark tries to save his business empire and his marriage, and daughter, Megan, lets her infatuation for a young local boy alienate the summer families who she thought were her friends. Connor Harris also returns to create new problems with plans to develop an unpopular and ecologically unfriendly real estate development on the lake. "Another stellar novel." "Even more compelling than EmmaLee." "A great success" "A delightful read." "After falling in love with Seasons of the EmmaLee, this was a must read!" "Lindley is a masterful storyteller, effortlessly moving between past and present." "A rising talent."

The Rise and Decline of the Redneck Riviera traces the development of the Florida-Alabama coast as a tourist destination from the late 1920s and early 1930s, when it was sparsely populated with "small fishing villages," through to the tragic and devastating BP/Deepwater Horizon oil spill of 2010. Harvey H. Jackson III focuses on the stretch of coast from Mobile Bay and Gulf Shores, Alabama, east to Panama City, Florida--an area known as the "Redneck Riviera." Jackson explores the rise of this area as a vacation destination for the lower South's middle- and working-class families following World War II, the building boom of the 1950s and 1960s, and the emergence of the Spring Break "season." From the late sixties through 1979, severe hurricanes

destroyed many small motels, cafes, bars, and early cottages that gave the small beach towns their essential character. A second building boom ensued in the 1980s dominated by high-rise condominiums and large resort hotels. Jackson traces the tensions surrounding the gentrification of the late 1980s and 1990s and the collapse of the housing market in 2008. While his major focus is on the social, cultural, and economic development, he also documents the environmental and financial impacts of natural disasters and the politics of beach access and dune and sea turtle protection. *The Rise and Decline of the Redneck Riviera* is the culmination of sixteen years of research drawn from local newspapers, interviews, documentaries, community histories, and several scholarly studies that have addressed parts of this region's history. From his 1950s-built family vacation cottage in Seagrove Beach, Florida, and on frequent trips to the Alabama coast, Jackson witnessed the changes that have come to the area and has recorded them in a personal, in-depth look at the history and culture of the coast.
