Whether we are checking emails, following friends on Facebook and Twitter, catching up on gossip from TMZ, planning holidays on TripAdvisor, arranging dates on Match.com, watching videos on Youtube, or simply browsing for deals on Amazon, the Internet pervades our professional and personal environments. The Internet has revolutionized our lives, but at what cost? In *The Internet Trap*, Ashesh Mukherjee uses the latest research in consumer psychology to highlight five hidden costs of living online: too many temptations, too much information, too much customization, too many comparisons, and too little privacy. The book uses everyday examples to explain these costs including how surfing the Internet anonymously can encourage bad behavior, using social media can make us envious and unhappy, and doing online research can devalue the product finally chosen. The book also provides actionable solutions to minimize these costs. For example, the book reveals how deciding not to choose is as important as deciding what to choose, setting up structural barriers to temptation can reduce overspending on e-commerce websites, and comparisons with others on social media websites needs to be cold rather than hot. *The Internet Trap* provides a new perspective on the dark side of the Internet, and gives readers the tools to become smarter users of the Internet.

The intense interest aroused in the public by what was known at the time as "The Styles Case" has now somewhat subsided. Nevertheless, in view of the world-wide notoriety which attended it, I have been asked, both by my friend Poirot and the family themselves, to write an account of the whole story. This, we trust, will effectually silence the sensational rumours which still persist. I will therefore briefly set down the circumstances which led to my being connected with the affair.

Watu wengi wanafamu kuhusu dhambi "nne kuu": kudanganya, kuiba, usherati na kuua. Ikiwa waweza kuuliza watu wakupe orodha ya dhambi sio kwa urahisi wao kutaja dhambi ya kusahau. Lakini Neno la Mungu liko wazi kuhusu jambo hili. Kusahau sio uadilifu! Kusahau, kukosa kukiri, kukosa kukumbuka ni dhambi mbele za Mungu.

World-renowned Stanford University psychologist Carol Dweck, in decades of research on achievement and success, has discovered a truly groundbreaking idea-the power of our mindset. Dweck explains why it's not just our abilities and talent that bring us success-but whether we approach them with a fixed or growth mindset. She makes clear why praising intelligence and ability doesn't foster self-esteem and lead to accomplishment, but may actually jeopardize success. With the right mindset, we can motivate our kids and help them to raise their grades, as well as reach our own goals-personal and professional. Dweck reveals what all great parents, teachers, CEOs, and athletes already know: how a simple idea about the brain can create a love of learning and a resilience that is the basis of great accomplishment in every area.

This is a powerful account of the story of Africa told through the life of one of its contemporary shapers, Reginald Abraham Mengi of Tanzania. *I Can, I Must, I Will* comes at a time when Africa is casting a new vision that is guided largely by the power of entrepreneurship. There could be no better guiding light for that vision than the spirit of courage, determination and dedication to self-improvement that is so vividly represented by the life and work recounted in this book. Like Africa itself, Dr. Mengi is a person of humble origins. But his character and personality were shaped by a family history that imbued in him a sense of self-confidence and commitment to setting goals and seeking to accomplish them. In addition to these personal values, the book also reveals a self-driven person with unflinching commitment to duty. Nothing seems to stand in the way of Dr. Mengi in his determination to reaffirm his self-worth through the pursuit of excellence.

After winning the highest award in his field, Vincent was offered a 3 percent raise. He knew at that moment he needed a monumental change. One month away from their baby being born, Vincent and Elizabeth started a side photography business out of desperation. In less than four years, they grew their business to pay off all of their debt, including their home, and left their jobs for a life of freedom. With the world moving rapidly towards a freelance model, *Freelance to Freedom* is not only timely and necessary, but it's also entertaining, engaging and paints a picture for anyone looking for a life of freedom with money, time and location.

Well known technology executive and angel investor Elad Gil has worked with high growth tech companies like Airbnb, Twitter, Google, Instacart, Coinbase, Stripe, and Square as they've grown from small companies into global brands. Across all of these break-out companies, a set of common patterns has evolved into a repeatable playbook that Gil has codified in *High Growth Handbook*. Covering key topics including the role of the CEO, managing your board, recruiting and managing an executive team, M&A, IPOs and late stage funding rounds, and interspersed with over a dozen interviews with some of the biggest names in Silicon Valley including Reid Hoffman (LinkedIn), Marc Andreessen (Andreessen Horowitz), and Aaron Levie (Box), *High Growth Handbook* presents crystal clear guidance for navigating the most complex challenges that confront leaders and operators in high-growth startups. In what Reid Hoffman, cofounder of LinkedIn and co-author of the #1 NYT bestsellers *The Alliance* and *The Startup of You* calls "a trenchant guide," *High Growth Handbook* is the playbook for turning a startup into a unicorn.

For the first time, a top leadership scholar and a top leadership practitioner explore the true duties, demands, and privileges of leadership. Intellectual sparks flew when Warren Bennis, the "father" of modern leadership studies and Steven B. Sample, one of the most accomplished university presidents in recent history, came together for candid explorations of the forces that shape successful leaders and unsuccessful ones. *The Art and Adventure of Leadership*, their final collaboration, reveals the profound insights that the authors gained together over the 16 years in which they co-taught one of the most popular leadership courses in America. Here, each brings his own distinct vantage point as they address the mechanics and mysteries of leadership. The result is a unique examination of the journey of great leaders from momentary setbacks to ultimate success. It offers profound lessons on what determines the difference between failure and redemption for leaders. And it illuminates important and overlooked dimensions of great leaders ranging from Winston Churchill to Steve Jobs. Together, they explore why: A mature leader must grasp when it's healthy to risk failure, and when failure can't be tolerated at any cost Leadership isn't for everyone and requires a particular set of skills and competencies that are often glossed over in most management literature To succeed in an uncertain and fast-changing world, a shrewd leader must understand which aspects of human society change—and which aspects never change A mature, wise leader must seek a balance between high-minded ideals and the gritty realities and compromises that leaders face in their daily lives Above all, meaningful leadership remains a matter of character With incredible insight, this book examines why George Washington, Abraham Lincoln, and other giants were able to recover from failures, learn resilience, and prepare themselves for their moments of destiny. In so doing, it demonstrates and helps cultivate the leadership skills that you need to create your own most meaningful legacy. *The Art and Adventure of Leadership* is a unique look at leadership, and a critical resource for the leaders of tomorrow.

Provides over a hundred "rules" about how to create wealth and make it grow, including saving, spending, investing, and enjoying money. As the host of Fox News Channel's *Your World with Neil Cavuto* and *Cavuto on Business*, Neil Cavuto reports on today's most influential business leaders and newsmakers. Ending each show with a provocative, insightful commentary, Cavuto stirs people to see the world in a new light, calling on them to think beyond the stories at hand and challenging people to reevaluate the world that they live in. In *Your Money or Your Life*, Cavuto compiles the best of these commentaries in one volume, creating a collection that is at once witty, thought-provoking, and inspiring. Covering a variety of topics—from remembering life before 9/11, to providing tips for empty nesters—Cavuto presents a wry yet evocative look at our world, one that speaks to the heart of the American condition. Spanning one of the most tumultuous decades in memory—from the wild and chaotic Clinton years through the sobering challenges of the War on Terror—Cavuto's words offer a window into our America at its best and its worst.

True wealth, asserts David Gikandi, is about discovering value within yourself and value within other people. It is about a kind of conscious living that incorporates gratitude, a belief in abundance, and the experience of joy. Based on the recent discoveries of theoretical physics and a close reading of inspirational classics of the last century, Gikandi creates a new model for the creation of personal wealth; a new model that shows readers how to create abundance by saving, giving, offering charity, and building happy relationships. Learn to use an internal mantra to build wealth consciousness. Practice conscious and deliberate thoughts and intentions. Decide, define, and set goals you can believe in. Practice gratitude, giving, and faith, and experience abundance and joy in your life. Includes a 16-page study guide—for individuals and group use.

The growth engine of the global economy is no longer through mega-production and huge conglomerates, but rather through the proliferation of smaller enterprises. In America alone, tens of thousands of businesses crop up each year. Unfortunately, few will succeed, though not due to a lack of ingenuity, initiative, or even capital. Why, then? Because, according to Dick Cross, author of *Just Run It!*, most business owners lack not just the fundamentals, the nuts and bolts of operating a business effectively day to day, but the bigger picture of how to achieve business success. After taking dozens of companies from underperforming to high performing, Cross observed a pattern, out of which he devised a formula for success. Using his *Just Run It!* formula--which includes the Vision-Strategy-Execution analysis--he is now teaching business owners how to understand their business on "the back of an envelope" and make it exceptional.

"One is tempted to say 'the only book you'll need on starting a business.' Brilliant! Genius! Choose your superlative-it'll fit."-Tom Peters People starting out in business tend to seek step-by-step formulas or rules, but in reality there are no magic bullets. Rather, says veteran company-builder Norm Brodsky, there's a mentality that helps street-smart entrepreneurs solve problems and pursue opportunities as they arise. Brodsky shares his hard-earned wisdom every month in *Inc.* magazine, in the hugely popular "Street Smarts" column he cowrites with Bo Burlingham. Now they've adapted their best advice into a comprehensive guide for anyone running a small business.

Over the years, President Donald Trump has written many bestselling books, but he has also written shorter essays that encompass his philosophy about how to live life to the fullest, both personally and professionally. In these pieces, which have been personally selected by Trump for this book, he gives his special perspective in what amounts to an "informal education" about success in business and in life. With a foreword by Rich Dad, Poor Dad, author Robert Kiyosaki, Trump's business acumen is on full display in such essays as: \*Keep the Big Picture in Mind \*Essays, Assets, and Stephen King \*Imagination: A Key to Financial Savvy \*Financial Literacy \*Think Like a Genius \*How to Get Rich Elizabeth Lewis was the child of Hollywood's darling couple, until her father murdered her mother. Six years later, she has traded her flashy, luxurious lifestyle for one of safe anonymity as a literary agent. With a different name and appearance, Liza Winter is living the life of her dreams-one where she's known for who she is instead of what her father

did. Except her apartment should be condemned, her car only starts when it wants, she hates the romance genre she has been assigned, and the CEO's deliciously attractive nephew is out to ruin her carefully laid plans. Reid Harder has never met an obstacle he couldn't overcome. When his new position in the romance department comes with a benefit his uncle didn't mention, he decides to wage a war against the intelligent, beautiful Liza to destroy every argument she has for turning him down. Still, the closer he gets to winning the prize, the more he realizes that the woman is keeping secrets that may endanger not just her life but his. Will Liza overcome her mistrust of Reid to reveal her secrets before he learns the truth and walks away? Or will a grudge-wielding apparition from her past make her the next deadly Hollywood headline?

Forbes calls this book 1 of 6 books that all entrepreneurs must read right now (along with Peter Thiel's book and the 7 Habits of Highly Successful People). In this book you will learn how to get a meeting with anyone. You will learn how to take your career to the next level. You will learn how to reinvent yourself in ways that you never thought was possible! Chris Haroun has had the opportunity in his career to meet with the top CEOs, entrepreneurs and investors in the world, including Warren Buffett, Bill Gates, Marc Benioff, and the CEOs of most large technology companies. This book is an amalgamation of business advice that Chris has compiled from his many meetings with successful business people over the past two decades as well as observations of why brilliant entrepreneurs like Steve Jobs or Mark Zuckerberg have become incredibly successful. Business schools do a good job of providing students with theoretical and practical frameworks that can be applicable to real world problems but business schools often miss teaching students some of the most crucial business lessons like how to network or how to find customers or how to get a job!
