Why do testicles hang the way they do? Is there an adaptive function to the female orgasm? What does it feel like to want to kill yourself? Does "free will" really exist? And why is the penis shaped like that anyway? In *Why Is the Penis Shaped Like That?*, the research psychologist and award-winning columnist Jesse Bering features more than thirty of his most popular essays from *Scientific American* and *Slate*, as well as two new pieces, that take readers on a bold and captivating journey through some of the most taboo issues related to evolution and human behavior. Exploring the history of cannibalism, the neurology of people who are sexually attracted to animals, the evolution of human body fluids, the science of homosexuality, and serious questions about life and death, Bering astutely covers a generous expanse of our kaleidoscope of quirks and origins. With his characteristic irreverence and trademark cheekiness, Bering leaves no topic unturned or curiosity unexamined, and he does it all with an audaciously original voice. Whether you're interested in the psychological history behind the many facets of sexual desire or the evolutionary patterns that have dictated our current mystique and phallic physique, *Why Is the Penis Shaped Like That?* is bound to create lively discussion and debate for years to come.

The intense interest aroused in the public by what was known at the time as "The Styles Case" has now somewhat subsided. Nevertheless, in view of the world-wide notoriety which attended it, I have been asked, both by my friend Poirot and the family themselves, to write an account of the whole story. This, we trust, will effectually silence the sensational rumours which still persist. I will therefore briefly set down the circumstances which led to my being connected with the affair.

Oka Doner's life work shines a light on the continuing importance of art and transformative power of our cosmic and enchanting natural world. Michele Oka Doner is one of today's foremost artists. Her prodigious career spans five decades and numerous artistic media, including sculpture, works on paper, furniture, video, jewelry, and sets and costumes. In addition, she has created over forty iconic public and private permanent art installations. They are the focus of EVERYTHING IS ALIVE. The common thread running through Oka Doner's oeuvre is her lifelong study and appreciation of the natural world, from which she derives her formal vocabulary. In EVERYTHING IS ALIVE this vocabulary hones in on magic, enchantment, and transformation as we are led through the artistic processes informing Oka Doner's prominent art installations. From Micco, the monumental concrete sculptural pavilion suffused with native greenery of the nearby Everglades to Oka Doner's haunting ceramic SoulCatcher and figurative sculptures born of clay at the Nymphenburg Porcelain Manufactory in Munich, to Miami International Airport, where Oka Doner's Sargassum soars overhead and her A Walk on the Beach lies at the feet of over 25 million travelers who traverse its 9,000 oceanic bronze forms each year. Four distinguished essayists, Judith Thurman, Joseph Giovannini, Cynthia Nadelman, and Gregory Volk, serve as guides through Oka Doner's evolution as an artist as seen in these installations, which are brought to life on 240 pages of stunning photographs, original process sketches, and sources of inspiration. EVERYTHING IS ALIVE offers a glimpse into the full breadth of Oka Doner's work. Above all, it shines a light on the continuing importance of art and the worldview that there is beauty to be found in all living things.
