Perhaps the least studied of Hildegard of Bingen's writings, *Solutions to Thirty-Eight Questions* is translated in this volume into English for the first time from the original Latin. In this work of exegesis, Hildegard (1098–1179) resolves thorny passages of Scripture, theological questions, and two issues in hagiographic texts. *Solutions to Thirty-Eight Questions* joins Hildegard's *Homilies on the Gospels*, which were directed to her nuns, as evidence of the seer's exegetical writing as well as her authority as an exegete. The twelfth-century saint wrote in standard genres of exegesis—homilies and *solutiones*—and her interpretations of Scripture were widely sought, including by male audiences.

Many leaders are unaware of the amazing power of questions. Our conversations may be full of requests and demands, but all too often we are not asking for honest and informative answers, and we don't know how to listen effectively to responses.

When leaders start encouraging questions from their teams, however, they begin to see amazing results. Knowing the right questions to ask—and the right way to listen—will give any leader the skills to perform well in any situation, effectively communicate a vision to the team, and achieve lasting success across the organization. Thoroughly revised and updated, *Leading with Questions* will help you encourage participation and teamwork, foster outside-the-box thinking, empower others, build relationships with customers, solve problems, and more. Michael Marquardt reveals how to determine which questions will lead to solutions to even the most challenging issues. He outlines specific techniques of active listening and follow-up, and helps you understand how questions can improve the way you work with individuals, teams, and organizations. This new edition of *Leading with Questions* draws on interviews with thirty leaders, including eight whose stories are new to this edition. These interviews tell stories from a range of countries, including Singapore, Guyana, Korea, and Switzerland, and feature case studies from prominent firms such as DuPont, Alcoa, Novartis, and Cargill. A new chapter on problem-solving will help you apply questions to your toughest situations as a leader, and a new "Questions for Reflection" section at the end of each chapter will help you bring Marquardt's message into all of your work as a leader. Now more than

ever, Leading with Questions is the definitive guide for becoming a stronger leader by identifying—and asking—the right questions.
