Loretta Marion's debut novel is a twisty page-turner, expertly blending the webs of mystery, danger and suspense with the alluring possibility of romance from a once unrequited love.

A man patiently watches a group of young girls walk home from school, waiting for the perfect moment to take the one child he has designated as his next victim.

However, what this predator does not know is that he, too, is being stalked. There is someone in the shadows-a trained Citizen-who is ready to make sure that the child under his assigned protection is never harmed. One pedophile, one abuser, one killer at a time; this Citizen and others like him will take a stand against those who prey on the weak and the innocent.

Do you believe that spending \$15,000 on a media center is vulgar, but that spending \$15,000 on a slate shower stall is a sign that you are at one with the Zenlike rhythms of nature? Do you work for one of those visionary software companies where people come to work wearing hiking boots and glacier glasses, as if a wall of ice were about to come sliding through the parking lot? If so, you might be a Bobo. In his bestselling work of "comic sociology," David Brooks coins a new word, Bobo, to describe today's upper class -- those who have wed the bourgeois world of capitalist enterprise to the hippie values of the bohemian counterculture. Their hybrid lifestyle is the atmosphere we breathe, and in this witty and serious look at the cultural consequences of the information age, Brooks has defined a new generation.

Homesick in Paradise is a wonderfully written novel that you can't read once and drop but read it time and time

again. The lead story has a personal emotional touch that draws you so close to empathizing with an eleven year old character, Enemona, who couldn't bear the heat of his mother's death, decides to break barrier in order to have a spiritual verbal communion with the dead mother. Would the dead mother respond in a mysterious way? The author similarly weaved the childhood memories of a child in a boarding secondary school with its fun and fabulous fury. It espouses the split personality of a nearly indoctrinated child in Christendom, with the conflict of participating in the rich culture of his African traditional festivals. It is an impressive narration laced with tragic stories but also harmonized with great hilarious stories that are didactic and perhaps ribs cracking.

A collection of short stories along with poems to express a college woman's encounters with the three most important men in her life thus far. In this book the reader will go on a journey living the love and heart breaking experiences the author writes of and eventually being guided to the self loving woman she is today. These poems represent love, honesty, heart break, and realization.

A fascinating exploration of our past, present, and future relationship with food For the first time in human history, there is food in abundance throughout the world. More people than ever before are now freed of the struggle for daily survival, yet few of us are aware of how food lands on our plates. Behind every meal you eat, there is a story. Hamburgers in Paradise explains how. In this wise

and passionate book, Louise Fresco takes readers on an enticing cultural journey to show how science has enabled us to overcome past scarcities—and why we have every reason to be optimistic about the future. Using hamburgers in the Garden of Eden as a metaphor for the confusion surrounding food today, she looks at everything from the dominance of supermarkets and the decrease of biodiversity to organic foods and GMOs. She casts doubt on many popular claims about sustainability, and takes issue with naïve rejections of globalization and the idealization of "true and honest" food. Fresco explores topics such as agriculture in human history, poverty and development, and surplus and obesity. She provides insightful discussions of basic foods such as bread, fish, and meat, and intertwines them with social topics like slow food and other gastronomy movements, the fear of technology and risk, food and climate change, the agricultural landscape, urban food systems, and food in art. The culmination of decades of research, *Hamburgers in Paradise* provides valuable insights into how our food is produced, how it is consumed, and how we can use the lessons of the past to design food systems to feed all humankind in the future.

Impact of Addictive Substances and Behaviours on Individual and Societal Well-being outlines an innovative and fascinating new framework for understanding the harm that addictive substances and behaviours can

Online Library Tastes Of Paradise A Social History Of Spices Stimulants And Intoxicants

cause. Taking a holistic approach and with well-being as a central tenet, it demonstrates how using different methods can lead to a more just and evidence-based approach to dealing with addictions. Presenting the latest and most comprehensive research, the expert team of authors examines the harm caused by addictive substances and behaviour, factors that contribute to addictions, and current European approaches to governing addictive substances and behaviours. It is both legal and illegal drugs, and behaviour that cause harm. For the world as a whole, cigarettes were the second largest cause of ill health and early death in 2010, alcohol the fifth, and illegal drugs the eighteenth. Regular and sustained heavy engagement in addictive substances and behaviour also impacts on quality of life and material living conditions. The well-being framework outlined here for understanding this impact places particular emphasis on the reciprocal relationship between well-being and drug use: well-being can be a driver of the heavy use of addictive substances and behaviours, and also compounds the harm done. Furthermore, the response of society can increase the harm caused by drug use, and stigma, social exclusion, and the actions of the criminal justice system can impair individual and societal well-being considerably. Impact of Addictive Substances and Behaviours on Individual and Societal Well-being is based on the research from ALICE RAP, a multidisciplinary European study of addictive substances and behaviours in contemporary society. A timely addition to the field, this book is essential reading for those wanting to make a real impact in the field of

addiction prevention policy, including public managers, practitioners, public health professionals, and stakeholders influencing policy for addictive substances and behaviours, as well as academics.

Tasting Difference examines early modern discourses of racial, cultural, and religious difference that emerged in the wake of contact with foreign peoples and foreign foods from across the globe. Gitanjali Shahani reimagines the contact zone between Western Europe and the global South in culinary terms, emphasizing the gut rather than the gaze in colonial encounters. From household manuals that instructed English housewives how to use newly imported foodstuffs to "the spicèd Indian air" of A Midsummer Night's Dream, from the repurposing of Othello as an early modern pitchman for coffee in ballads to the performance of disgust in travel narratives, Shahani shows how early modern genres negotiated the allure and danger of foreign tastes. Turning maxims such as "We are what we eat" on their head, Shahani asks how did we (the colonized subjects)

Online Library Tastes Of Paradise A Social History Of Spices Stimulants And Intoxicants

become what you (the colonizing subjects) eat? How did we become alternately the object of fear and appetite, loathing and craving? Shahani takes us back several centuries to the process by which food came to be inscribed with racial character and the racial other came to be marked as edible, showing how the racializing of food began in an era well before chicken tikka masala and Balti cuisine. Bringing into conversation critical paradigms in early modern studies, food studies, and postcolonial studies, she argues that it is in the writing on food and eating that we see among the earliest configurations of racial difference, and it is experienced both as a different taste and as a taste of difference.

Publishers Weekly says "Ramnarayan provides a detailed, contemporary primer that illuminates the promise and peril of the brave new world of social media.

Ramnarayan herself acknowledges that social media is no panacea-her crisp presentation, with chapter summaries to highlight the main pointers, confirms that companies that choose not to listen to customers stand to lose ground to competitors who do." WHAT OTHERS ARE SAYING ABOUT THE BOOK "Sujata

Ramnarayan's excellent book does several things that I have not seen in other treatments of this subject. She takes a reasoned perspective on a topic that is often full of hyperbole. The book is filled with advice for the marketer that is both practical and strategic. It helps the marketer to leverage social media where it can best impact business performance. I highly recommend the book." - Gordon Wyner, Editor-In-Chief, Marketing Management "This practical guide to social media

marketing cuts through the noise with clear advice on how to turn strategy into practice. With the help of effective charts and analysis, the reader can gain real insight into social media's influence in corporate marketing. By showing how building quality content in social media is no longer an option for corporations, this is also a lesson in building a brand by listening to your customers. " -Rajesh Subramaniam, SVP, Global Marketing and Customer Experience, FedEx Services

"Owned social media presence is critical to generating earned media, which is where the growing value and rewards come in for social media marketing. This important book will help you to understand these concepts and reality to better evaluate, plan, and execute your social media marketing efforts." - Devin Redmond, CEO and Co-Founder, SocialiQ Networks

"Are you overwhelmed by the changing digital landscape? If so, Sujata's book is a must read with actionable insights, tips on digital sharing, and more."

The author of Men Explain Things to Me explores the moments of altruism and generosity that arise in the aftermath of disaster Why is it that in the aftermath of a disaster? whether manmade or natural? people suddenly become altruistic, resourceful, and brave? What makes the newfound communities and purpose many find in the ruins and crises after disaster so joyous? And what does this joy reveal about ordinarily unmet social desires and possibilities? In A Paradise Built in Hell, award-winning author Rebecca Solnit explores these phenomena, looking at major calamities from the

1906 earthquake in San Francisco through the 1917 explosion that tore up Halifax, Nova Scotia, the 1985 Mexico City earthquake, 9/11, and Hurricane Katrina in New Orleans. She examines how disaster throws people into a temporary utopia of changed states of mind and social possibilities, as well as looking at the cost of the widespread myths and rarer real cases of social deterioration during crisis. This is a timely and important book from an acclaimed author whose work consistently locates unseen patterns and meanings in broad cultural histories.

From the widely acclaimed, best-selling author of *American War*, a new novel—beautifully written, unrelentingly dramatic, and profoundly moving—that looks at the global refugee crisis through the eyes of a child. “It is one thing to put a human face on a migrant crisis and another to do so in so compelling a way that a reader simply cannot put your book down.” —Gish Jen, author of *The Resisters* More bodies have washed up on the shores of a small island. Another overfilled, ill-equipped, dilapidated ship has sunk under the weight of its too many passengers: Syrians, Ethiopians, Egyptians, Lebanese, Palestinians, all of them desperate to escape untenable lives back in their homelands. But miraculously, someone has survived the passage: nine-year-old Amir, a Syrian boy who is soon rescued by Vänna. Vänna is a teenage girl, who,

despite being native to the island, experiences her own sense of homelessness in a place and among people she has come to disdain. And though Vänna and Amir are complete strangers, though they don't speak a common language, Vänna is determined to do whatever it takes to save the boy. In alternating chapters, we learn about Amir's life and how he came to be on the boat, and we follow him and the girl as they make their way toward safety. What *Strange Paradise* is the story of two children finding their way through a hostile world. But it is also a story of empathy and indifference, of hope and despair—and about the way each of those things can blind us to reality.

A SYNTHESIS OF MODERN LIFE: A VISIONARY OVERVIEW OF THE EFFORT AND MISSION OF HUMANITY by Shamcher Bryn Beorse (Brynjolf Bjorset) The book *Man and this Mysterious Universe* was originally described as a synthesis of the many aspects of modern civilization, bringing within its scope the contribution of the East as well as of the West, showing how it has grown from the civilization of the past and how it will probably develop into the civilization of the future. Or as the author put it more simply: a survey of Western and Eastern Sciences. Ranging through various disciplines from Everyday Life, Art, Education, World Events and Mysticism, Beorse describes the evolution of humanity and the responsibilities of each of us in this process. Seen all

together, they convey an image of the totality of the human endeavour: occurring both outside of time and in time, on schedule, as a great play. "This comprehensive and refreshing picture is sorely needed at this time of narrow outlook and overspecialization," wrote the distinguished psychologist, educator and author, Dr. Philip B. Ballard. Inspired to write by the great sage, Inayat Khan, Beorse combined three former works into one for Man and This Mysterious Universe. Written during WWII, then added to with new information, the book was first published in 1949. His previous work, Distribute or Destroy, had been in the field of economics. Beorse further widened his scope in this publication, whose title refers to the popular physics book by James Jeans, This Mysterious Universe. Here Beorse inserts humanity into this assessment of a universe of vibrations and events, creating Man and This Mysterious Universe. "There is no great difference between rock, a tree, a man or a loving thought carving its way through the universe like a ray of the sun."

Consumers in eighteenth-century England were

Online Library Tastes Of Paradise A Social History Of Spices Stimulants And Intoxicants

firmly embedded in an expanding world of goods, one that incorporated a range of novel foods (tobacco, chocolate, coffee, and tea) and new supplies of more established commodities, including sugar, spices, and dried fruits. Much has been written about the attraction of these goods, which went from being novelties or expensive luxuries in the mid-seventeenth century to central elements of the British diet a century or so later. They have been linked to the rise of Britain as a commercial and imperial power, whilst their consumption is seen as transforming many aspects of British society and culture, from mealtimes to gender identity. Despite this huge significance to ideas of consumer change, we know remarkably little about the everyday processes through which groceries were sold, bought, and consumed. In tracing the lines of supply that carried groceries from merchants to consumers, *Sugar and Spice* reveals how changes in retailing and shopping were central to the broader transformation of consumption and consumer practices, but also questions established ideas about the motivations underpinning consumer choices. It demonstrates the dynamic nature of eighteenth-century retailing; the importance of advertisements in promoting sales and shaping consumer perceptions, and the role of groceries in making shopping an everyday activity. At the same time, it shows how both retailers and their customers were influenced by

Online Library Tastes Of Paradise A Social History Of Spices Stimulants And Intoxicants

the practicalities and pleasures of consumption.

They were active agents in consumer change, shaping their own practices rather than caught up in a single socially-inclusive cultural project such as politeness or respectability.

This book is DEDICATED TO: The eradication of FEAR in America-as FDR articulated: "nameless, unreasoning, unjustified terror which paralyzes needed efforts to convert retreat into advance." In short, fear is the mother of all cancers on the body politic of America.....i.e., fear is a wall to keep the Mexicans out, and drives our insidious racism.....and the pernicious fear resulting from McCarthyism still hangs like a black cloud over and cripples America to this day, resulting in our Third World healthcare system, and Job Creation--and is the parent of the pervasive hate in America today.....to illustrate: I didn't write the following. It is a cut and paste from FACEBOOK, or some blog [would like to give credit if knew the author]--but it is so on target regarding how "fear" is driving Conservative policy in America today-i.e., is undermining America and our progress--and relegating America to a Third World country status, rather than a world leader-"Conservatives are such cowards: they are afraid of gay people getting married or serving in the military; they are afraid of bringing terrorists to super max prisons in the US from which no one has ever escaped; they are afraid of the boy scouts letting gay kids in; they are afraid

of everyone voting and are constantly suppressing the vote under some bogus voter fraud theory; they are afraid of letting students vote at their universities; they are afraid of women having the right to choose; they even are afraid of women getting contraception [the real issue actually is a women's agency and control over their bodies]; they are afraid of immigration reform leading to citizenship because they are afraid of-- name whatever reason; they are afraid of mandating gun purchasers to undergo background checks for crazy people and terrorists; they are afraid of people smoking pot; they are afraid of climate change being real and contradicting their beloved Bible; they are afraid of legitimate campaign reform; they are afraid of Muslims; they are afraid of blacks; they are afraid of atheists; they are afraid of hippies; they are afraid of socialists; they are probably still afraid of monsters under their beds; they are just rank cowards and keep making things up to be afraid of."

In addition to pleasing palates since ancient times, chocolate has played an integral role in culture, society, religion, medicine, and economic development across the Americas, Africa, Asia, and Europe. In 1998, the Chocolate History Group was formed by the University of California, Davis, and Mars, Incorporated to document the fascinating story and history of chocolate. This book features fifty-seven essays representing research activities and contributions from more than 100 members of the group. These contributors draw from their backgrounds in such diverse fields as anthropology, archaeology, biochemistry, culinary arts, gender studies, engineering, history, linguistics, nutrition, and paleography.
