

## **The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case**

The bestselling account of one of South Australia's worst series of crimes - the bodies in the barrels. A disused bank vault holding eight dismembered bodies immersed in barrels of acid. Two bodies buried in a suburban backyard. A further two found in the bush. Such was the findings of one of South Australia's most horrific murder trials. Informed by material never seen before - an interview with Bunting's last lover Elizabeth Harvey, and with the Crown's key eye-witness James Vlassakis and with details of the torture and crimes not previously released - this is a tensely woven and microscopic examination of tawdry lives and tragic deaths. Four men who tortured and killed for fun, for power. Four men who kept each other's dark secrets for years. By the time the police investigation concluded, the story had invited comparison with the nightmare of Rosemary and Fred West, the British House of Horrors. Details of what the killers did to their victims before and after their deaths were deemed so depraved that suppression orders were in place throughout the trial. But the killers were not insane. They made deliberate choices to kill and lived in a culture of complete anarchy, sadistic violence, deviance and chaos. Journalist and author Debi Marshall explores the killers' psychopathic makeup in minute and harrowing detail. She charts the victims' exposure to generational paedophilia, incest, unemployment and

## Read Book The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case

hopelessness. Marshall covers the exhaustive trials and interviews the lawyers who ran them. Through interviews, she captures the voices of the victim's families and examines the police and forensic investigation and then wades into the social structure that spawned the people in this story. This book was used as a primary source for the acclaimed Australian feature film, *Snowtown*.

From the moment radiation was discovered in the late nineteenth century, nuclear science has had a rich history of innovative scientific exploration and discovery, coupled with mistakes, accidents, and downright disasters. Mahaffey, a long-time advocate of continued nuclear research and nuclear energy, looks at each incident in turn and analyzes what happened and why, often discovering where scientists went wrong when analyzing past meltdowns. Every incident has led to new facets in understanding about the mighty atom—and Mahaffey puts forth what the future should be for this final frontier of science that still holds so much promise.

A captivating and inspiring portrait of legendary actress Meryl Streep and her work, *Queen Meryl* explores the fearless icon's trailblazing roles in film, her feminist activism, and the indelible mark she's left on pop culture. Meryl Streep is the most celebrated actress of our time. She's a chameleon who disappears fully into each character she plays. She never tackles the same role twice. Instead, she leverages her rarified platform to channel a range of dynamic, complicated women--Joanna Kramer, Karen Silkwood, Julia Child, Margaret Thatcher, Katharine Graham--rather than limit

## Read Book The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case

herself to marginal roles for which other actresses must settle: Supportive Wife. Supportive Mother. Supportive Yet Utterly Disposable Love Interest. Streep will have none of that. The once-awkward, frizzy-haired suburban teen blossomed into a rising ingénue on the stage at Vassar College and the Yale School of Drama. She came of age during the women's movement of the '60s and '70s, and has worn her activism on her sleeve even when it was unfashionable. When she reached 40, the age when many leading ladies fade away, Streep plunged forward, taking her pick of parts that interested her and winning a pile of awards along the way.

Meanwhile, she remained an unlikely box-office draw, her clout even managing to grow with age: *The Devil Wears Prada*, starring Streep as the Anna Wintour avatar Miranda Priestly, scored \$326 million worldwide. Journalist and author Erin Carlson documents all of Streep's Oscars, accents, causes, memes, friendships, and feuds; also exploring the "off-brand" forays into action-adventure (*The River Wild*) and musicals (*Mamma Mia!*), and how Streep managed to sneak her feminism into each character. In the spirit of nontraditional bestsellers like *Notorious RBG* and *The Tao of Bill Murray*, *Queen Meryl* is illustrated by artist Justin Teodoro and filled with fascinating lists and sidebars, delivering joy in homage to its unique and brilliant subject.

Kiranjit Ahluwalia who came to England and got married. Ten years later she killed her tortured husband and sentenced to life imprisonment.

Discusses diseases and ailments that have been

connected to sex throughout history, and the reactions to them that have been shaped by religion or morality.

Traces the early history of the anti-nuclear movement in California

Two Washington, D.C., defense reporters document their findings during a tour of nuclear weapons facilities throughout the country, in an account that addresses such topics as whether or not nuclear weapons are still on alert in America, Iran's actual nuclear pursuits, and Dick Cheney's personal "undisclosed location" of choice. 30,000 first printing.

A narrative of the Atomic Age by the award-winning author of Rocket Man explores the complexities of nuclear energy, citing the contributions of such individuals as Marie Curie, Albert Einstein and Robert Oppenheimer while sharing lesser-known historical details.

Oklahoma has had more than its share of sensational crimes with national implications, but for the first time in one volume, attorney/historian Kent Frates reveals the facts behind six infamous cases that remain the talk of courtrooms everywhere. From bloody murders, to political scandal, to a horrific act of domestic terrorism, Oklahoma's Most Notorious Cases captures the stories, the times, and the import of these landmark trials. Populated by a host of stranger-than-fiction characters--a machine-gun toting gangster, a Cherokee outlaw, a blood thirsty conman, a crooked governor, and a twisted soldier, the stories reveal the cold calculation inherent in the perpetrators and the guts, guile, and tenacity required of the dedicated law enforcement professionals who brought these men and women to justice.

Notorious Cases, attorney and historian Kent Frates returns to the evidence files to retrace the stories of seven more notorious cases set in Oklahoma -- from crime scene to courtroom.

• “The foreword promises exclusive information and delivers. Through prodigious research, Sullivan sniffs out small details, like overlooked gas station receipts, to meticulously define the time line of Bundy’s killing spree. [He] also attempts to offer, when possible, well-rounded views of the forgotten women who were victims, sharing snapshots of their lives and personalities. Precise and fast-paced, this is a worthwhile addition to the existing Bundy canon.”—Booklist Reviews of the 1st edition • “Despite the multitude of books about Bundy, *The Bundy Murders* offers fresh material and ideas about Bundy’s predatory movements. Well researched and highly recommended, for Bundy scholars and true crime fans alike.”—Katherine Ramsland, author of *The Human Predator* and *The Devil’s Dozen* • “Unearths new and horrifying evidence of other murders and graphic new details about the most notorious and fascinating serial killer of all time...provides the most in-depth examination of the killer and his murders ever conducted...a must-read for all true crime fans”—Dan Zupansky, author of *Trophy Kill* • “*The Bundy Murders* is scholarly and yet, at the same time, compelling and mesmerizing. Couldn’t put it down. This is crime writing at its very best!”—Gary C. King, author of *The Murder of Meredith Kercher* and *Rage* • “Kevin Sullivan has delivered a precise, knowledgeable chronicle of the life and death of America’s most recognizable serial killer. This highly accessible study gives context to the details of horror unleashed by the unfinished soul we know as Ted Bundy.”—Ron Franscell, bestselling author of *The Darkest Night* and *Delivered from Evil* • “The touchstone of accuracy and insight...never before revealed information on the grisly

## Read Book The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case

crimes of America's most notorious serial killer...required reading for anyone interested in serial killers in general and Ted Bundy in particular."—Burl Barer, Edgar Award winning author of *The Saint: A Complete History in Print Radio Television and Film* • "Sullivan's book is the most comprehensive I have encountered on Bundy. He provides minor details and insights not provided by any other book on the subject, revealing subtle facets of the killer's background and crimes which have previously gone unnoticed."—Gary Brucato, coauthor, *The New Evil: Understanding the Emergence of Modern Violent Crime* • "Insightful, well researched, and well written...highly recommend[ed] for any true crime reader, or any reader wanting to know more about Bundy or about deviant personalities. In fact, this book should be required reading for any student of psychology or criminal law"—Psychotic State.com In this revised, updated and expanded edition, the author explores the life of Theodore Bundy, one of the more infamous--and flamboyant--American serial killers on record. Bundy's story is a complex mix of psychopathology, criminal investigation, and the U.S. legal system. This in-depth examination of Bundy's life and his killing spree that totaled dozens of victims is drawn from legal transcripts, correspondence and interviews with detectives and prosecutors. Using these sources, new information about several murders is unveiled. The biography follows Bundy from his broken family background to his execution in the electric chair.

*Yakuza Moon* is the shocking, yet intensely moving memoir of 37-year-old Shoko Tendo, who grew up the daughter of a yakuza boss. Tendo lived her life in luxury until the age of six, when her father was sent to prison, and her family fell into terrible debt. Bullied by classmates who called her "the yakuza girl," and terrorized at home by a father who became a drunken, violent monster after his release from prison,

## Read Book The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case

Tendo rebelled. A regular visitor to nightclubs at the age of 12, she soon became a drug addict and a member of a girl gang. By the age of 15 she found herself sentenced to eight months in a juvenile detention center. Adulthood brought big bucks and glamour when Tendo started working as a bar hostess during Japan's booming bubble economy of the nineteen- eighties. But among her many rich and loyal patrons there were also abusive clients, one of whom beat her so badly that her face was left permanently scarred. When her mother died, Tendo plunged into such a deep depression that she tried to commit suicide twice. Tendo takes us through the bad times with warmth and candor, and gives a moving and inspiring account of how she overcame a lifetime of discrimination and hardship. Getting tattooed, from the base of her neck to the tips of her toes, with a design centered on a geisha with a dagger in her mouth, was an act that empowered her to start making changes in her life. She quit her job as a hostess. On her last day at the bar she looked up at the full moon, a sight she never forgot. The moon became a symbol of her struggle to become whole, and the title of the book she wrote as an epitaph for herself and her family.

Recounts Pat Bennett's seventeen-year search for her runaway husband, her personal growth during those years, and her ultimate court confrontation

'Walker is my name and I am the same. Riddley Walker. Walking my riddels where ever theyve took me and walking them now on this paper the same. There aint that many sir prizes in life if you take noatis of every thing. Every time will have its happenings out and every place the same. Thats why I finely come to writing all this down. Thinking on what the idear of us myt be. Thinking on that thing whats in us lorn and loan and oansome.' Composed in an English which has never been spoken and laced with a storytelling tradition that

predates the written word, RIDDLEY WALKER is the world waiting for us at the bitter end of the nuclear road. It is desolate, dangerous and harrowing, and a modern masterpiece.

How does America, founded on the promise of freedom for all, find itself poised to become a police state? In *Police State*, legendary "country lawyer" Gerry Spence reveals the unnerving truth of our criminal justice system. In his more than sixty years in the courtroom, Spence has never represented a person charged with a crime in which the police hadn't themselves violated the law. Whether by hiding, tampering with, or manufacturing evidence; by gratuitous violence and even murder, those who are charged with upholding the law too often break it. Spence points to the explosion of brutality leading up to the murder of Freddie Gray in Baltimore, insisting that this is the way it has always been: cops get away with murder. Nothing changes. *Police State* narrates the shocking account of the Madrid train bombings -how the FBI accused an innocent man of treasonous acts they knew he hadn't committed. It details the rampant racism within Chicago's police department, which landed teenager Dennis Williams on death row. It unveils the deliberately coercive efforts of two cops to extract a false murder confession from frightened and mentally fragile Albert Hancock, along with other appalling evidence from eight of Spence's most famous cases. We all want to feel safe. But how can we be safe when the very police we pay to protect us instead kill us, maim us, and falsify evidence against us. Can we accept the argument that cops may occasionally overstep their boundaries, but only when handling guilty criminals and never with us? Can we expect them to investigate and prosecute themselves when faced with allegations of misconduct? Can we believe that they are acting for our own good? Too many innocent are convicted;

## Read Book The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case

too many are wrongly executed. The cost has become too high for a free people to bear. In *Police State*, Spence issues a stinging indictment of the American justice system. Demonstrating that the way we select and train our police guarantees fatal abuses of justice, he also prescribes a challenging cure that stands to restore America's promise of liberty and justice for all.

In October 1943, Esther Terner Raab and 300 other Jews Escaped from Sobibor, a Nazi death camp in eastern Poland. It was the biggest escape of WWII and the subject of Richard Rashke's book, *ESCAPE FROM SOBIBOR*. The book, and movie based on it, brought Esther many invitations to speak in public schools. Her moving story generated hundreds of letters from children expressing their love, concern and outrage. Those letters became the inspiration for the play *DEAR ESTHER*.

The instant #1 New York Times and USA Today best seller by Karen Kilgariff and Georgia Hardstark, the voices behind the hit podcast *My Favorite Murder!* Sharing never-before-heard stories ranging from their struggles with depression, eating disorders, and addiction, Karen and Georgia irreverently recount their biggest mistakes and deepest fears, reflecting on the formative life events that shaped them into two of the most followed voices in the nation. In *Stay Sexy & Don't Get Murdered*, Karen and Georgia focus on the importance of self-advocating and valuing personal safety over being 'nice' or 'helpful.' They delve into their own pasts, true crime stories, and beyond to discuss meaningful cultural and societal issues with fierce empathy and unapologetic frankness. "In many respects, *Stay Sexy & Don't Get Murdered* distills the *My Favorite Murder* podcast into its most essential elements: Georgia and Karen. They lay themselves bare on the page, in all of their neuroses, triumphs, failures, and struggles. From eating disorders to

substance abuse and kleptomania to the wonders of therapy, Kilgariff and Hardstark recount their lives with honesty, humor, and compassion, offering their best unqualified life-advice along the way.” —Entertainment Weekly “Like the podcast, the book offers funny, feminist advice for survival—both in the sense of not getting killed and just, like, getting a job and working through your personal shit so you can pay your bills and have friends.” —Rolling Stone At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A look at Edward Snowden, Karen Silkwood, and government and corporate whistleblowing, by an author praised for his “first-rate reporting” (Kirkus Reviews). In June of 2013, Edward Snowden, a twenty-nine-year-old former CIA employee, leaked thousands of top secret National Security Agency (NSA) documents to journalist Glen Greenwald. Branded as a whistleblower, Snowden reignited a debate about private citizens who reveal government secrets that should be exposed but may endanger the lives of others. Like the late Karen Silkwood, whose death in a car accident while bringing incriminating evidence against her employer to a meeting with a New York Times reporter is still a mystery, Snowden was intent upon revealing the controversial practices of his employer, a government contractor. Rightly or wrongly, Snowden and Silkwood believed that their revelations would save lives. In his riveting, thought-provoking book, Richard Rashke weaves between the lives of these two controversial figures and creates a narrative context for a discussion of what constitutes a citizen's duty to reveal or not to reveal.

The fantastic story of the U.S.'s undeclared war against Cuba, including an expanded section on the CIA's role in the assassination of JFK. "Deadly Secrets is a warning as well as terribly exciting reading".--Studs Terkel. National radio and

TV coverage.

June 13th, 1977, Rural Eastern Oklahoma. Three young girls are brutally murdered on the first night of what should have been a fun-filled week of learning and camaraderie at Camp Scott, a Girl Scouts of America property. Three lives taken in the night, without a sound, and only a short distance away from where the counselors slept. "The Camp Scott Murders" unveils the facts around one of the most bizarre and tragic crimes in the history of Oklahoma. This facts-at-a-glance guide to this old-case is a resource of information, covering the events that have unfolded across the course of 37 years. Hear from the people who were there, both before and after the night those hideous crimes were committed, and read a full chapter dedicated to the 1978 preliminary trial containing the evidence that was reviewed.

On June 3, 1991, an abandoned car was found on a busy stretch of highway near Newport Beach, California. Its owner, Denise Huber, seemed to have vanished off the face of the earth. For three years, her disappearance remained a mystery, inspiring one of the most intensive missing-persons searches in history. All to no avail. Because the only man who knew what happened to Denise wasn't talking. He wasn't through with her yet. On July 3, 1994, in an affluent suburb of Prescott, Arizona, a padlocked truck parked in the driveway of 37-year-old John Famalaro provoked suspicion. When authorities finally pried open its doors, they found the nude, handcuffed corpse of Denise Huber stuffed into a freezer--preserved forever in the throes of death. Inside Famalaro's home were Denise's personal belongings along with neatly arranged "trophies" of other female prey. But it was the revelations at Famalaro's trial that

## Read Book *The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case*

would truly stagger the imagination, laying bare the terrifying details of Denise's final hours, and exposing the dark past of a merciless killer consumed by perversity and unfathomable evil.

A fictionalised account of the true story of Karen Silkwood, a nuclear plant employee in Oklahoma who died under mysterious circumstances.

From skinny scholar to muscle-bound showman. “Easily the best memoir ever written about weight training, steroids and all” (Men’s Journal). When blue-blooded, storklike Samuel Wilson Fussell arrived in New York City fresh from the University of Oxford, the ethereal young graduate seemed like the last person on Earth who would be interested in bodybuilding. But he was intimidated by the dangers of the city—and decided to do something about it. At twenty-six, Fussell walked into the YMCA gym. Four solid years of intensive training, protein powders, and steroid injections later, he had gained eighty pounds of pure muscle and was competing for bodybuilding titles. And yet, with forearms like bowling pins and calves like watermelons, Fussell felt weaker than ever before. His punishing regimen of workouts, drugs, and diet had reduced him to near-infant-like helplessness and immobility, leaving him hungry, nauseated, and prone to outbursts of “’roid rage.” But he had come to succeed, and there was no backing down now. Alternately funny and fascinating, *Muscle* is the true story of one man’s obsession with the pursuit of perfection. With insight, wit, and refreshing candor, Fussell ushers readers into the wild world of juicers and gym rats who sacrifice their lives, minds, bodies, and

## Read Book *The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case*

souls to their dreams of glory in Southern California's so-called iron mecca.

The story of an Iowa farmer who murdered his wife and two others before taking his own life illustrates the major themes--rising debt and the changing farm community--of the ongoing farm crisis

In the hands of a skilled trial lawyer, the closing argument offers the courtroom's greatest dramatic possibilities. It is the advocate's last opportunity to convince the jury of their version of the "truth" before the defendant's fate is sealed. Every argument included here is a finely crafted verbal work of art - they represent the modern-day, highest form of an ancient profession and art: that of the storyteller. The only available collection of great closing arguments - complete with insightful analysis and biographical profiles of the lawyers involved - this fascinating volume gathers the passionate finales of the most celebrated cases in history. Included are the climactic closes to the Nuremberg War Trials; Gerry Spence's crusade against the Kerr-McGee Nuclear Power Plant after the mysterious death of Karen Silkwood; Vincent Bugliosi's successful prosecution of cult leader Charles Manson and his followers; the astounding acquittal of John Delorean despite video evidence of his offences and the prosecution resulting from the Mai Lai massacre.

This true story of a courageous whistleblower is "as fascinating and gripping as anything John Le Carr[é] or Agatha C[h]ristie could devise" (The Christian Science Monitor). On November 13, 1974, Karen Silkwood was driving on a deserted Oklahoma highway when her car

## Read Book *The Killing Of Karen Silkwood The Story Behind The Kerr McGee Plutonium Case*

crashed into a cement wall and she was killed. On the seat next to her were doctored quality-control negatives showing that her employer, Kerr-McGee, was manufacturing defective fuel rods filled with plutonium. She had recently discovered that more than forty pounds of plutonium were missing from the Kerr-McGee plant. Forty years later, her death is still steeped in mystery. Did she fall asleep before the accident, or did someone force her off the road? And what happened to the missing plutonium? *The Killing of Karen Silkwood* meticulously lays out the facts and encourages the readers to decide. Updated with the author's chilling new introduction that discusses the similarities with Edward Snowden's recent revelations, Silkwood's story is as relevant today as it was forty years ago. For this updated edition, the author has added the latest information as to what happened to the various people involved in the Silkwood case and news of the lasting effects of this underreported piece of the history of the antinuclear movement.

How the United States protected John Demjanjuk: "A richly researched, gripping narrative about war, suffering, survival, corruption, injustice and morality" (Kirkus Reviews, starred). John "Iwan" Demjanjuk was at the center of one of history's most complex war crimes trials. But why did it take almost sixty years for the United States to bring him to justice as a Nazi collaborator? The answer lies in the annals of the Cold War, when fear and paranoia drove American politicians and the U.S. military to recruit "useful" Nazi war criminals to work for the United States in Europe as spies and saboteurs and to

## Read Book *The Killing Of Karen Silkwood The Story Behind The Kerr Mcgee Plutonium Case*

slip them into America through loopholes in U.S. immigration policy. During and after the war, that same immigration policy was used to prevent thousands of Jewish refugees from reaching the shores of America. The long and twisted saga of John Demjanjuk, a postwar immigrant and auto mechanic living a quiet life in Cleveland until 1977, is the final piece in the puzzle of American government deceit. The White House, the Departments of War and State, the FBI, and the CIA supported policies that harbored Nazi war criminals and actively worked to hide and shelter them from those who dared to investigate and deport them. The heroes in this story are men and women such as Congresswoman Elizabeth Holtzman and Justice Department prosecutor Eli Rosenbaum, who worked for decades to hold hearings, find and investigate alleged Nazi war criminals, and successfully prosecute them for visa fraud. But it was not until the conviction of John Demjanjuk in Munich in 2011 as an SS camp guard serving at the Sobibor death camp that this story of deceit can be told for what it is: a shameful chapter in American history. Riveting and deeply researched, *Useful Enemies* is the account of one man's criminal past and its devastating consequences, and the story of how America sacrificed its moral authority in the wake of history's darkest moment. Glenn Cheney arrived in Kiev during those first days when the Soviet Union ceased to exist and Ukraine was reborn. Almost immediately he found himself talking with scientist, journalist, refugees, engineers, top-level government officials, doctors, environmentalists, parents of sick children and people living just a few kilometers from the Chernobyl complex. He heard

stories about the disaster that went far beyond what had appeared in the Western press. The reports of atrocities, epidemics, tyranny and despair blend with a most unusual travelogue, considerable humor and KGB intrigue.

A narrative report by a woman who grew up near the Rocky Flats nuclear weapon facility describes the dark secrets that dominated her childhood, the strange cancers that afflicted her neighbors, her brief employment at Rocky Flats and the efforts of residents to achieve legal justice. 30,000 first printing.

Word count 5,585 CD: American English Bestseller

In September 2016 it will be 60 years since the first British mushroom cloud rose above the plain at Maralinga in South Australia. The atomic weapons test series wreaked havoc on Indigenous communities and turned the land into a radioactive wasteland. In 1950 Australian prime minister Robert Menzies blithely agreed to atomic tests that offered no benefit to Australia and relinquished control over them and left the public completely in the dark. This book reveals the devastating consequences of that decision. This book is the most comprehensive account of the whole saga, from the time that the explosive potential of splitting uranium atoms was discovered, to the uncovering of the extensive secrecy around the British tests in Australia many years after the British had departed, leaving an unholy mess behind."

Paleo workouts that are heavy on results--and low on equipment investment Paleo Workouts For Dummies offers a program of back-to-the-Stone-Age exercises with specially designed workouts that burn fat, fight disease, and increase energy. The paleo workouts found in this step-by-step guide, promote sound activities with a strong emphasis on practicing and mastering fundamental/primitive human movements such as squats, hinges, pushes/pulls, sprints, crawls, and more. Paleo Workouts For Dummies caters to the anti-gym crowd
