In the near future, anarchists set off a global pulse that shorts out electrical connections—trapping Private Danny Kelso, Corporal Kate Wade and their platoon inside remote-piloted robots called the Tin Men—and as chaos descends, the Tin Men must decide if they want to stay true to their mission or save themselves.

The Red Desert of Wyoming is a beautiful and punishing place for anybody, even for game warden Joe Pickett and his friend Nate Romanowski in this #1 New York Times bestselling thriller... Nate is off the grid, recuperating from wounds and trying to deal with past crimes, when he is suddenly surrounded by a small team of elite professional special operators. They're not there to threaten him, but to make a deal. They need help destroying a domestic terror cell in Wyoming's Red Desert, and in return they'll make Nate's criminal record disappear. But they are not what they seem, as Nate's friend Joe Pickett discovers. They have a much different plan in mind, and it just might be something that takes them all down—including Nate and Joe.

Two years after the Pulse shut down the nation's power grid, Darrick, his wife Tonya, and their autistic son Andy, show up on the doorstep of Darrick's childhood home. Darrick must make peace with his older brother Jimmie and ailing father James, all the while reacquainting himself with the life of a homesteader. Meanwhile, a looming omen hovers over everything he holds dear. A huge murder of crows circle a large, well-equipped and organized group of aggressive survivors that are about to discover the homestead and threaten everyone's way of life. When a bad decision leads to the loss of a family member, everything changes, and Darrick must reanalyze and adapt himself to the situation.

Mistrust and paranoia take hold as Darrick struggles with the blurred lines between friend and foe.

USA TODAY bestselling author Jeff Hirsch once again creates a futuristic world with stunning, dramatic realism. A civil war rages between the Glorious Path--a militant religion based on the teachings of a former US soldier--and what's left of the US government. Fifteen-year-old Callum Roe and his younger brother, James, were captured and forced to convert six years ago. Cal has been working in the Path's dog kennels, and is very close to becoming one of the Path's deadliest secret agents. Then Cal befriends a stray dog named Bear and kills a commander who wants to train him to be a vicious attack dog. This sends Cal and Bear on the run, and sets in motion a series of incredible events that will test Cal's loyalties and end in a fierce battle that the fate of the entire country rests on.

From the USA Today bestselling author of *The Last War*, *The Age of Embers*, and *Dark Days of the After* comes a BRAND NEW post-apocalyptic survival saga, *The Abandon Series*. Leighton McDaniel is in her first year at Northern Kentucky University when an EMP detonates above the US. The lights are out, the grid is down, and electronics have failed, including Leighton's new hearing aids.

Unbeknownst to the town of Highland Heights, the weather warning system is down and tornados are forming. As Leighton heads for her boyfriend's farm, an admirer of hers quietly takes chase. Nothing covers one's tracks better than shadows and chaos, but some battles turn quickly, leaving one to wonder, who is the wolf, and who becomes the prey? As the tornado's winds begin to whip, and Kentucky descends into lawlessness, the former Golden Gloves boxer, Hudson Croft, is forced to defend his home from violent opportunists. Hudson is ready for the anarchy, but he never anticipated the tornado heading his way, or the war Leighton McDaniel brought with it. Although Hudson is anxious to return to the fight, he remains haunted by his past boxing injuries, for one blow to the head, and it's lights-out on his life. Amid such an unprecedented attack, a handful of citizens will fight to survive the many storms bearing down upon them. Those clinging to the old world will

When Morgan Carter's car breaks down 250 miles from his home, he figures his weekend plans are ruined. But things are about to get much, much worse: the country's power grid has collapsed. There is no electricity, no running water, no Internet, and no way to know when normalcy will be restored-if it ever will be. An avid survivalist, Morgan takes to the road with his prepper pack on his back. During the gruelling trek from Tallahassee to his home in Lake County, chaos threatens his every step but Morgan is hell-bent on getting home to his wife and daughters.

The apocalypse strikes without warning. A mysterious geomagnetic event that sweeps the globe, leaving a powerful amnesia in its wake. In the blink of an eye, the human race is robbed of the most basic skills learned in childhood: reading, writing and the ability to speak. Civilization crumbles, plunging the world into an age of unparalleled barbarism. From the ashes emerge a handful of survivors, largely unaffected by the change. Alone, they must brave a dangerous and chaotic world in order to reach the only known refuge: a camp set in the foothills of Salt Lake City, Utah. There lies food, shelter and maybe even answers. But standing between them and safety is more than bands of armed thugs and bloodthirsty cannibals. A new evil is gathering. One that's eager to destroy the last vestiges of life on earth and finish what it started, once and for all. The survivors: A man who awakens in the bowels of a secret laboratory with no memory of how he got there and only an enigmatic tattoo to guide him. A Coast Guard sailor searching for a killer who may not be what he seems. A mother of two and recent widow, struggling to protect her family from a world gone mad. A former CEO and full-time scumbag determined to do whatever it takes to thrive in this new apocalyptic wasteland.

Three visionary scientists and an eccentric Silicon Valley billionaire become humanity's only hope in the face of a global resource crisis that has prompted a daring effort to obtain essential needs from outer space. By the best-selling author of *One Second After*.

visit a world where their counterpart is still alive. Enter Cara, whose parallel selves happen to be exceptionally good at dying—from disease, turf wars, or vendettas they couldn't outrun. Cara's life has been cut short on 372 worlds in total. On this dystopian Earth, however, Cara has survived. Identified as an outlier and therefore a perfect candidate for multiverse travel, Cara is plucked from the dirt of the wastelands. Now what once made her marginalized has finally become an unexpected source of power. She has a nice apartment on the lower levels of the wealthy and walled-off Wiley City. She works—and shamelessly flirts—with her enticing yet aloof handler, Dell, as the two women collect off-world data for the Eldridge Institute. She even occasionally leaves the city to visit her family in the wastes, though she struggles to feel at home in either place. So long as she can keep her head down and avoid trouble, Cara is on a sure path to citizenship and security. But trouble finds Cara when one of her eight remaining doppelgängers dies under mysterious circumstances, plunging her into a new world with an old secret. What she discovers will connect her past and her future in ways she could have never imagined—and reveal her own role in a plot that endangers not just her world but the entire multiverse. "Clever characters, surprise twists, plenty of action, and a plot that highlights social and racial inequities in astute prose."—Library Journal (starred review)

Margaret Kassmel, a hard-working waitress and a passionate dancer, gets a job as dancing instructor on a luxury cruise ship. For two weeks she will be teaching two dance classes per day. The rest of the time, she will be free to enjoy the vacation of her dreams. Several days before the cruise, during her shift at the café, Margaret waits on Dominic Graham, the most handsome and most annoying customer she has ever had. She hates him instantly and hopes that their paths will never cross again. Dominic, the CEO of Hamilton International, is about to marry the daughter of multibillionaire George Hamilton and become extraordinarily rich. It is the peak of his career, the success he has always strived to reach, yet he feels strangely unsatisfied. A luxury cruise sounds like a perfect opportunity to go unnoticed and to relax before his life shifts into the next stage. On the first night at dinner, Margaret is shocked to find herself seated next to Dominic. She is still boiling mad about their disastrous encounter at the café. Dominic can't explain why, but he is drawn to Margaret and tries to apologize to her. Although Margaret gives him the cold shoulder at first, a spark flies and their relationship develops from initial attraction to passionate love. The cruise stops at beautiful destinations and Dominic and Margaret have the best time of their lives as their vacation gets closer to the end. When Margaret discovers Dominic's secret he realizes that he will need to make an extremely difficult decision in order to save what he values most.

Readership is down at the "Daily Bugle," a reporter has been murdered, and private investigator and former superhero Jessica Jones, who needs the insurance, has been hired to work in the paper's new superhero section, "The Pulse." Jesse Michaels, bike messenger, Damon Miles, just out of prison, Maggie Gray, call center technician, and Elliot, who

has been living on the streets, all find themselves in Times Square on New Year's Eve but instead of a celebration, all the power goes out and the city descends into chaos. The only way these four people will survive the aftermath of an EMP is if they work together to get out of New York City.

When the lights go out, only the strong will survive the darkness... It's New Year's Eve, and the world is about to change. Forever. Out of nowhere, a catastrophic EMP event cripples the nation's power supply. Cars spiral off the streets. Planes hurtle from the skies. And in the powerless confusion, it doesn't take long for terrified survivors to resort to violence. Max is working as a security guard in the city centre when the power goes out. Surrounded by chaos, he knows he only has one choice: to get out of the city and get to the countryside. But will he make it out of a city that is rapidly collapsing? Aoife is on her way home from a terrible night out when her bus crashes, leaving her unconscious. When she wakes up, she is engulfed in darkness and surrounded by flames. Does she have what it takes to fight her way home to her friends? And in the darkness, a mysterious prisoner steps out of his cell with one goal in mind: revenge. On the first day of darkness, do you have what it takes to survive? *Survive the Darkness* is the first book in the new post apocalyptic EMP survival thriller series. If you enjoy stories of ordinary people thrown into harrowing new circumstances, you'll love the *Survive the Darkness* series.

**BRAND NEW SERIES! 25% OFF FOR A limited time only!** From Ryan Schow, bestselling author of *The Last War* and *The Age of Embers*, comes an intense new tale of strength, survival and patriotism. *Dark Days of the After* puts ordinary citizens on the front line of a domestic conflict that was never supposed to happen, one that will either unify the country or break her for good... **THIS IS NOT THE AMERICA YOU KNOW.** In the near future, the Constitution is outlawed, the government is ceremonial at best and the country is about to lose her name. No one knows how this happened, or why America prostrated herself to the kind of foreign forces who would impose obedience through compliance. Resisters call the occupation "creeping death." Those countries grabbing at the reins of power see it for what it is—a full scale invasion. **SECURITY ENGINEER, LOGAN CAHILL**, is part of the underground effort to reclaim America, but when he finds a cryptic message in the world's largest server room leading to a doomsday clock, everything changes. He now knows the enemies, the weapons and the time of America's death, right down to the minute. If he wants to survive the apocalypse, he and the feisty Skylar Madigan have to bug out fast. This won't be easy considering the surveillance grid in place, or the armed lock-down of all major cities. **THE FINAL DEFENSIVE FRONTIER FOR dedicated patriots** is life on the land held by their ancestors, those men and women dug into their off-grid homes and operating a black market economy. But not everyone has what it takes to survive life outside the occupied cities, and precious few know how to defend themselves against the brutality of America's captors. All that is about to change... **WHAT OTHER READERS ARE**

drawn into a complex historical mystery that spans generations and puts her job, her love life, and her oldest friendship at risk.

It's been a week without power. No phones. No computers. Nothing. Whatever shred of humanity is left in people is slowly dwindling away. Gangs are forming, people are starving, and the whole country is in a free-for-all. Accompanied by his neighbor, Nelson, Mike leaves Pittsburgh and heads to his family's cabin in Ohio. For Mike the only thing worse than not making it to the cabin is the fear of his family not being there when he does.

Captain Kate Holloway moved her family to New York to start over, and break the barriers that her work had created. But when an EMP brings New York to its knees, Kate must fight to survive amid the terror descending upon the city and rescue her family.

From the New York Times bestselling author of *The Program* comes a haunting, romantic, and suspenseful story about one girl's search for healing in a grand and mysterious hotel full of secrets. Stay tonight. Stay forever. When Audrey Casella arrives for an unplanned stay at the grand Hotel Ruby, she's grateful for the detour. Just months after their mother's death, Audrey and her brother, Daniel, are on their way to live with their grandmother, dumped on the doorstep of a DNA-matched stranger because their father is drowning in his grief. Audrey and her family only plan to stay the night, but life in the Ruby can be intoxicating, extending their stay as it provides endless distractions—including handsome guest Elias Lange, who sends Audrey's pulse racing. However, the hotel proves to be as strange as it is beautiful. Nightly fancy affairs in the ballroom are invitation only, and Audrey seems to be the one guest who doesn't have an invite. Instead, she joins the hotel staff on the rooftop, catching whispers about the hotel's dark past. The more Audrey learns about the new people she's met, the more her curiosity grows. She's torn in different directions—the pull of her past with its overwhelming loss, the promise of a future that holds little joy, and an in-between in a place that is so much more than it seems... And the 13th chapter will only add to the mystery behind the 13th floor of Hotel Ruby...and ultimately, what it means for Audrey. Welcome to the Ruby.

**NEW YORK TIMES BEST SELLER** • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of *Say Nothing*, as featured in the HBO documentary *Crime of the Century*. The Sackler name adorns the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, known for their lavish donations to the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis. *Empire of Pain* begins with the story of three doctor brothers, Raymond, Mortimer and the incalculably energetic Arthur, who weathered the poverty of the Great Depression and appalling anti-Semitism. Working at a barbaric mental institution, Arthur saw a better way and conducted groundbreaking research into drug treatments. He also had a genius for marketing, especially for pharmaceuticals, and bought a small ad firm. Arthur devised the marketing for Valium, and built the first great Sackler fortune. He purchased a drug manufacturer, Purdue Frederick, which would be run by Raymond and Mortimer. The brothers began collecting art, and wives, and grand residences in exotic locales. Their children and grandchildren grew up in luxury. Forty years later, Raymond's son Richard ran the family-owned Purdue. The template Arthur Sackler created to sell Valium—co-opting doctors, influencing the FDA, downplaying the drug's addictiveness—was employed to launch a far more potent product: OxyContin. The drug went on to generate some thirty-five billion dollars in revenue, and to launch a public health crisis in which hundreds of thousands would die. This is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. *Empire of Pain* chronicles

the multiple investigations of the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. *Empire of Pain* is a masterpiece of narrative reporting and writing, exhaustively documented and ferociously compelling. It is a portrait of the excesses of America's second Gilded Age, a study of impunity among the super elite and a relentless investigation of the naked greed and indifference to human suffering that built one of the world's great fortunes.

### Surviving the Collapse

In the dead of winter, a super EMP destroys the nation's power grid. No electricity. No cars or phones. Worst of all: No heat. The country is plunged into instant chaos. But for twenty-six-year-old Hannah Sheridan, it's the best day of her life. For the last five years, she's been held captive by a sadistic psychopath--until the EMP releases the lock of her prison. Hannah emerges from her underground cell into a hostile winter landscape with no way to call for help, no vehicle that will drive, armed with nothing but the clothes on her back and her own determination to survive. Liam Coleman, cynical loner and former soldier, is headed nowhere fast. He believed he was prepared for any disaster--until the EMP took everything he'd ever cared about in a matter of seconds. When he runs across a desperate woman who will die without his help, he's forced to make a choice. Two hundred frozen, perilous miles stand between them and their destination in rural Michigan. But the lack of power, desperate people, and the treacherous elements aren't the only threats. Hannah's captor isn't about to let her go. He will hunt her to the ends of the earth and beyond, destroying anything and anyone who gets in his way. For she has something he wants--she's nine months pregnant with his child. *Edge of Collapse* is a gripping post-apocalyptic EMP thriller perfect for fans of Ryan Schow, Grace Hamilton, Harley Tate, Jack Hunt, and Boyd Craven.

NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk

Best Akart book to date--no one can hold your attention better!" International bestselling author Bobby Akart delivers pulse-pounding thrills in The Geostorm Series, the story of a planet-changing phenomenon, a natural disaster brought about by the Earth itself. "Every time I have read a series by this author, I think, wow, this is the best. Now, I think, this is definitely the best. Action, suspense, everything--a definite thumbs up." The Earth's magnetic field surrounds our planet like an invisible force field connected by a north and south pole. It's what makes compasses point north and it protects our atmosphere from the continual bombardment of geomagnetic storms from the Sun. Without a magnetic field, the planet's atmosphere would be stripped away leaving critical infrastructure at risk and humanity exposed to deadly radiation. What happens when these poles begin to wander? This field grows weaker with deadly consequences for all of humanity. The change in the world's climate could change the face of the planet as we know it. "Akart is one of those very rare authors who makes things so visceral, so real, that you experience what he writes." Readers will become enthralled with the discoveries of Chapman Boone, former storm chaser, and full-time field meteorologist who begins to experience extraordinary weather anomalies. His sister, Kristi Boone, is a Doctor of Veterinary Medicine known for being attune to the exotic animals within her care. At first, the changes in the animals' behavior are subtle ... until they aren't. Follow the story of the Squire and Sarah Boone family, Indiana farmers and their children who begin to recognize the signs of The Shift. "Bobby Akart is truly one of the best, greatest writers alive today."

After an EMP bomb detonates over the United States, frying the entire electrical grid, Georgie Fitz decides to take refuge at her estranged father's cabin in the Rocky Mountains with her boyfriend and his family. When they arrive, Georgie discovers that a group of survivalists have already erected a camp there, and her father is nowhere to be found. As she adjusts to her new normal, she has trouble adhering to the survivalists' rules. Can she fit in at the camp and find out what happened to her father?

"Ted Koppel reveals that a major cyberattack on America's power grid is not only possible but likely--and that it would be devastating" and "examines a threat unique to our time and evaluates potential ways to prepare for a catastrophe"--Book jacket. Shark. Tarantula. Sharkantula. When a genetically modified tarantula finds itself loose in the Great White shark exhibit at Shark World, the feisty arachnid sinks its fangs into the main attraction. Without warning, the Great White mutates into Sharkantula and the opening day show turns deadly. The mutated shark/tarantula hybrid is hungry and ready to feast upon the flesh of those that don't run away fast enough to escape her webbing. Desperate to stop the carnage, a group of Shark World employees join forces with the tarantula's keeper in an effort to stop the devastation before Sharkantula can escape the confines of the aquatic theme park and spread her terror across the United States.

But they soon experience terrifying supernatural encounters tied to the deadly secrets of an unsolved mass murder. Can they solve the mystery in time? Or will they face the same doomed fate as the tenants who came before them?

In a world without power, Jason must fight for survival as he heads to the wilds of the Appalachian Mountains. An electromagnetic pulse attack on the United States shuts down all power, communications and transportation. With no food deliveries, no vehicles working, society begins to unravel. Starvation and death begin to reign and panic leads to violence. Marauding gangs roam the countryside, stealing, killing or worse and cities begin to wall themselves off from the danger outside. As society breaks down, Jason heads to the Appalachian Mountains to avoid the growing anarchy, hoping to wait out the chaos. The gangs threaten but loneliness becomes his biggest enemy as the solitude envelopes him. In a secluded mountain valley he finds a woman, Anne, and her two daughters struggling to survive. They are near starvation when Jason shows up. Violence soon follows him. Survival will mean fighting...and killing. The power hasn't returned, the country is still shattered and Jason and Anne must struggle for a new life in a dangerous world. If you like "One Second After" and other survival/post-apocalyptic stories, you will enjoy this personal story of trying to survive and thrive after an EMP attack.
